# TOILET SOAP FOR THE PIG.

Illinois Farmer Hopes Thus to Prevent Hog Cholera.

(BY DIRECT WIRE TO THE TIMES.)  
BLOOMINGTON (Ill.) Nov. 26.—[Exclusive Dispatch.] Toilet soap, brushes and towels to keep hogs sweet and clean and prevent the ravages of cholera, will soon be in order in Illinois. Not in years has the malady been so prevalent or caused such heavy losses to stockmen. Ordinary remedies appear to be without effect and many of the central Illinois farmers have commenced the bath system. This consists in giving the swine monthly douches of water treated with a solution of carbolic acid and other ingredients which not only removes all dirt from the hide, but also kills germs and creates a healthy condition of the skin.

Francisco and Los Angeles districts to the loss of the country districts, cannot pass unless it is given the combined support of San Francisco and Los Angeles delegations, which is not likely in view of the divided condition of the southern delegation.

Assemblyman Randall is confident in his declaration that he has enough members of the Los Angeles delegation pledged to his support to make impossible any merger of the two big city delegations in support of the Thompson or any similar measure.

ON A COMPROMISE.

It is while San Francisco and Los Angeles delegations are thus directing their efforts at each other that the country delegates figure on forcing a favorable compromise.

Tomorrow's session will be devoted solely to the work of organization in the Senate and Assembly. It is improbable that any of the delegations

Flash and Herald.

## News in The Times This Morning

Yesterday morning, Juan Lopez and Bitts were arrested on suspicion of having committed the crime. The murdered man was found in a field near the river and the suspects were taken to the police station.

The vigorous protests against the government ruling on created orders have caused the government to send an expert to Fort Verde, and it is possible that the former will be able to locate the place where the stolen fruit carries sufficient sugar.

Frank McCutchen, a Long Beach banker, died yesterday after a long illness. He was a prominent citizen and a member of the Long Beach City Council.

The Long Beach Realty Board is making an effort to locate in that city the General Aeroplane Company, which now has headquarters in New York.

The strike between strikers and strike breakers culminated yesterday in the death of one man at Bakerfield and the wounding of two others.

Plans for the new Arroyo Seco bridge have been received at Pasadena and it is expected that the construction will be started soon.

FACEBOOK SLOPE. One was killed and several injured in the collapse of a railroad bridge over Cedar River in Washington yesterday.

The industrial trouble makers appeared yesterday to be thoroughly cooled and routed at Aberdeen, Wash., where the officers had turned the riotous crowd out of the city.

Prisoners were yesterday in close pursuit of "Indian Mike," charged with the murder of Constable William Blake of Shasta County.

Nearly all the delegates to the special session of the Legislature gathered in Sacramento yesterday.

Claiming that he had shot himself accidentally in a park at Rockton, young business man died in the hospital here yesterday. Police consider it suicide.

The police of Portland, Or., declared yesterday that the riotous crowd in Washington would have to leave and that the officers would be ready to meet them.

The police of San Jose raided a Chinese gambling house yesterday morning and the City Jail was crowded with prisoners.

It was announced by Southern Pacific officials at Sacramento yesterday that more men are now employed in the company's shops than they were in the past.

GENERAL EASTERN. E. G. Lewis announced in St. Louis yesterday that he would be a candidate for President of the United States in 1912, on the Woman's League ticket.

The steel mills of the country increased their production from 2 to 3 per cent. last week, according to yesterday's report from New York.

It was reported yesterday in New York that the stock market indicates growing confidence in the commercial outlook and the City Jail was crowded with prisoners.

United States Senator Weeks yesterday urged the insurgent Republicans of Illinois to adopt equal suffrage, the initiative, referendum and recall in their platform.

Bar. Dr. G. C. John D. Rockefeller's purchase of the Louisiana Meritt story relating to the Meade case from Wilson and railroad magnate Mr. Rockefeller had never called a loan in the Meritts, and had only failed to extend their options because they had never asked him to do so.

# SPECTER OF INTERVENTION LOOMS LARGE IN MEXICO.

Vital Fear Has Seized Both Foreigners and Natives of Southern Republic.

Thousands of Americans in the City of Mexico Are Reported to Be Holding Secret Meetings and Arming Themselves for Dreaded Eventualities, and in the Meantime Are Sending Their Families Away.

(BY DIRECT WIRE TO THE TIMES.)

MEXICO CITY, Nov. 26.—[Exclusive Dispatch.] A very real fear has taken hold of both the foreigners and the natives of this capital—the specter of intervention, which, since the discovery of the three-cornered plot of Bernardo Reyes, Emilio Vasquez Gomez and Emiliano Zapata to overthrow the Madero government, has grown into almost unbelievable proportions.

The Americans here, of whom there are about 10,000, are holding secret meetings, arming themselves, shipping their wives and children out of the country, and some of them even going so far as to close out their businesses and leave the country. Commerce of every kind is in an alarming state. Money commands as high rates as 5 per cent. per month, and there is obtainable only on gilt-edged securities.

UNDER DIAZ REGIME. During the Diaz regime credits were abundant among all the business houses, both wholesale and retail, and collections under six months were unheard of. Now the longest time on which men of the best standing in the city can obtain credit is for three months.

Authoritative reports have gone from the American Ambassador, Henry Lane Wilson, to Washington, and, based on these exact statements of conditions, the United States government has ordered the retention of the troops on the border. All the upper classes of Mexico are strong Republicans, and the majority of the army, soldiers and officers alike, is of the same belief.

The arrest of Reyes in San Antonio created an immensely unfavorable impression here, especially in the army, the only power in the entire republic which can save the foreigners if intervention comes.

THE MAIN QUESTION. The question is openly asked: "If the American government can apprehend Reyes so readily, why could it not have caught Madero, when he was committing much more serious breaches of the neutrality laws last year?"

The feeling is growing that the stable government of Diaz should have been protected by the United States rather than the incapable administration of the present government, four-fifths of whose offices are filled by members of one family—the Maderos. The longing for the quiet prosperous times of the Diaz rule is strong on the people of the better class, while those of the lower element, who never had a meal ahead of them, and who never will have it, are following Madero. Rioting, even in the suburbs of this city, is of almost daily occurrence. The police have orders not to strike anyone with their clubs and not to use their revolvers unless first injured.

The result is that the "pelado" mob simply ignores the policeman, being careful not to injure him, but merely failing to do his person any harm secure the rioter from blows from the cop's club or shots from his pistol.

AGAINST FOREIGNERS. These mobs are particularly bitter against foreigners, and it is unsafe for any man or woman not Mexican to pass near where one of these "bolas" is going on. Parades and manifestations in honor of various politicians and officials are of nightly occurrence and no foreigner ever goes on the street when one of these parades is in progress. Their present attitude is taken as but a forerunner of what their actions will be should intervention come, and the Americans, as well as all the Anglo-Saxons, are taking time by the forelock, and providing themselves with organization and arms and ammunition.

The British government has ordered all its Consuls to advise the subjects living in all parts of Mexico to demand arms of the Mexican government. Failing to receive these, an application to the British legation here results in immediate shipment of arms to the persons requesting them, under the seal of the legation, which even the Madero secret service agents dare not violate.

Not the least terrified are the better class Mexicans at the mere mention of intervention. Nine out of ten native business men and property owners would like to see the Stars and Stripes floating over Mexico, but they are afraid of the atrocities they know will come with the period of transition.

FROM AN AUTHORITY. Said a Mexican business man, who is rated at something like \$60,000,000 to your correspondent yesterday: "I own a hacienda which is worth 400,000 pesos; if the Americans took over this country it would be worth a million gold, but I fear that if the army of occupation ever comes in from the north, I should not live to see my property increase in value. The United States would do for Mexico what she is doing for Cuba, Porto Rico and the Philippines, but in the interim not only you Americans, but you Mexicans

who do not support Madero would be slaughtered like rats in a trap." Every newspaper in Mexico, except the Mexican Herald, which is published in English, and the Nueva Era, which is the organ of Madero, is calling openly on the government to restore peace. Immediately, "Heat the great white-headed eagle of the North swoop down upon us." But the government cannot restore peace in a moment, especially with five well-developed revolts in full swing in as many different parts of the country.

THE GOMEZ MOVEMENT. The Vasquez-Gomez movement is terrorizing Yucatan and Quintana Roo, where the imposition of Jose Maria Pino Suarez as vice-president has made thousands of enemies for Madero. The Zapata horde has completely

(Continued on Fourth Page.)

## Chinese May Call Him President.

Wu Ting-fang.

Nanking river, Nanking.

Fortifications, Nanking.

Nanking drum tower.

## Advices From China Received by a Methodist Episcopal Bishop

Indicate that Wu Ting-fang, who distinguished himself by his diplomatic services for China in the United States, may become the first President of the Chinese republic now in process of incubation in a rebellion that resulted in the bombardment of the city of Nanking yesterday. Dispatches lead to the belief that Nanking will fall shortly. The city is the ancient capital of China, and success of the republican armies may lead to the re-establishment of the capital there.

How Did It Happen?

## OLD "LUCKY'S" HISTORIC OAKWOOD LIES IN ASHES.

Fire of Mysterious Origin Destroys the Famous Hotel Once the Scene of Life and Revelry, but Five Months Closed Under Spell of Recent Reform Wave—Was Formerly Headquarters of Racing Men.

THE OAKWOOD HOTEL at Arcadia, one of the historic landmarks of Southern California, and the late "Lucky" Baldwin headquarters, was totally destroyed by fire of mysterious origin last night.

The blaze, which broke out in the roof of the internationally known structure, was discovered shortly before 9 o'clock, but so rapidly did the flames spread that the fire was beyond control when the Monrovia fire company arrived. That the building was burning more than half an hour before the fire was discovered, is evidenced by the circumstance that a continual buzzing was heard over the telephone wires at the Arcadia exchange before an alarm was sounded.

The girl at the exchange, mystified at the continual registering of a ring from the hotel, which had been closed five months, cut the connection. When it was finally reported to the Monrovia fire department that the hotel was burning the fire was well under way.

The cause of the fire is only conjectured. H. A. Unruh, manager of the estate of E. J. "Lucky" Baldwin, the builder of the hotel, stated that further than that, the fire was probably due to the crossing of electric charged wires, he had nothing to say at present.

It is significant that yesterday was the first Sunday the new Sunday-clos-

ing ordinance in Arcadia went into effect. There are those who believe that the fire may have been part of a programme of revenge against the members of the Baldwin estate, who since the death of "Lucky" Baldwin have been attempting to "reform" the town of Arcadia.

Changes in the membership of the Board of Trustees of the town at an election last spring resulted in an ordinance being passed prohibiting the sale of liquor on Sunday. This law became effective yesterday. It was bitterly fought at the election.

Hundreds of motorists, many of whom had been among the patrons of the place, viewed the fire. When it was seen that it would be impossible to save the structure the members of the Monrovia company turned their efforts toward saving surrounding structures.

The Oakwood hotel is remembered by the pioneers of Southern California as the headquarters of the people of wealth in the early days. It was built in 1885 by "Lucky" Baldwin, upon his arrival in this section of the State, from the gold mining regions of the North. When first opened it was run in connection with the old Raymond Hotel, which was destroyed by fire about fifteen years ago.

It was the headquarters for the lausanne of all passes through the domain of the famous Santa Anita ranch. It was one of the principal

Greatest meeting of the campaign tonight at Temple Auditorium, Fifth and Olive streets! Go early and get a seat.

(Continued on Tenth Page.)

# REPULSED BY REBELS.

Nanking Is Being Bombarded.

Imperial Troops in Mad Sortie Are Driven Back by Bold Besiegers.

Second General in Command of the Manchu Defenders Among the Dead.

Premier Yuan Now Without a Cabinet—Japanese Increase Guards.

(BY A. P. NIGHT WIRE TO THE TIMES.)

NANKING, Nov. 26.—The first gun of the bombardment of Nanking was fired at 7:30 o'clock this morning. A fort about a mile to the north opened hostilities. The bombardment continued for a considerable time without interruption. There is an unconfirmed report that 300 imperialists have been killed.

NANKING, Nov. 27, (1 a.m.)—After more than half a century of silence, the hills overlooking the walled city of Nanking, the ancient capital of China, were tonight with rebellious forces eagerly for its occupation and determined to overthrow the last stronghold of Manchus South of the Yangtze.

From the Tiger Hill fort, for several hours Sunday morning, big guns spoke repeatedly, while farther up along the northeastern range, from the top of Purple Mountain, overlooking the Ming Tombs for a fifteen mile semi-circle westward to the Tang-shi, smaller forts scattered shells into every portion of the city. So far as known, the casualty list is not large.

AMONG THE DEAD.

Gen. Wong, second in command of the defenders, is among those killed. During the earlier part of the day, the imperialists attempted a sortie against the attacking forces, with a view to recapturing their positions and guns, but were driven back inside the walls with considerable loss.

The Tiger Hill batteries, meanwhile, were pounding shells into Lion Hill. They succeeded in silencing the Manchu batteries there, which it is suspected were of little value.

The object of the first sortie of the Tiger Hill was shown by the early appearance of four rebel cruisers, and later in the day of other warships.

In the evening, a dozen torpedo boat destroyers and cruisers were lying near the city.

Doubtless they will quickly reduce the lower sections and drive the defenders to the south.

SEEK REFUGE.

The Viceroy of Nanking and Tartar generals in fear of Gen. Chanx, the imperialist commander, have taken refuge in the Japanese Consulate, in which only the Consul remains.

Had it not been for the presence of the foreign interests now in Nanking.

The Consulate is well guarded by marines.

Sunday's attack can only be considered a slight forerunner of bigger things to follow, because the main body of the revolutionists steadily investing every side and steadily bringing every big gun in position.

The plans of the attacking force were not revealed.

The insurgents may not attempt to rush the city, but prefer to bombard steadily and await its surrender.

But, if breaches are made in the walls of the city, it is believed Gen. Chang and the loyal troops will make a desperate stand.

CABINET IS SMASHED; YUAN IS ALL ALONE.

(BY A. P. NIGHT WIRE TO THE TIMES.)

PEKING, Nov. 26.—Premier Yuan Shi Kai is probably without a Cabinet, only the presidents of the minor boards having accepted offices. The finance board is without a Minister.

The Vice-Minister left Peking today, after informing a personal friend that he did not intend to return. The military activity on the part of Yuan Shi Kai is considered a forerunner of bigger things.

Thirty foreigners, most of them Americans, arrived here tonight from Tai Yuan Fu. They were given safe escort both by the rebels and the imperialists.

The diplomatic body, through the dean of the corps, Sir John Jordan, has represented to the Premier the necessity of avoiding disorders in Peking. The Ministers believe, however, that the legation guards will be able to prevent a massacre unless it is thoroughly organized and suddenly precipitated.

By order of the police, dragoon flags are flying throughout Peking, emblematic of the people's joy at the formation of a new Constitution.

The recent took the oath today with elaborate ceremonial, wearing adoration before the Emperor's tablets in the ancestral temple to the nineteenth century.

(Continued on Second Page.)

## DEFENSE HAS DAY IN COURT.

Mrs. Patterson to Testify Further in Denver Trial.

Alleged Eye-Witness Will Tell of Shooting.

Mother and Diary of Deceased to Be Introduced.

(BY A. P. NIGHT WIRE TO THE TIMES.) DENVER (Col.) Nov. 26.—The second week of the trial of Mrs. Gertrude Gibson Patterson for the murder of her husband, Charles A. Patterson, begins tomorrow with the prosecution having closed its direct case and the defense having placed on the stand its most material witness, Mrs. Patterson.

The defense expects to introduce witnesses to corroborate the woman's alleged abuse by her husband. An alleged eye-witness will also be placed on the stand by the defense who is expected to corroborate Mrs. Patterson's statements as to how the shooting was done. The defense will then rest. In rebuttal the State will place Mrs. Mary K. Patterson, mother of the dead man, on the stand, and it is expected that she will testify as to the physical soundness of her son prior to the time he met Gertrude Gibson. The prosecution will also attempt to introduce numerous letters written by Patterson to his brother, a Chicago attorney, in which he freely discussed his private affairs, and probably will also attempt to introduce what purports to be the dead man's diary written in the form of day by day notes and letters to his mother.

**PATTERSON'S DIARY.**  
This diary, which was found among the dead man's effects, has been in the possession of Horace G. Benson, special prosecuting attorney, from the first, and he made frequent reference to it in his cross-examination of Mrs. Patterson.

In writing to his mother July 1 last, Patterson said: "When you say in your letter 'Oh, how I wish she would only get away and leave you entirely and not be a snake in the grass,' you said a whole lot. If ever there was a woman who was a demon on earth in her home, and then makes outsiders believe she was terribly maltreated, it is her; the lies she tells and the pouting and the sulking and the work on people's feelings surely makes outsiders believe her a devil, but such is not the case."

After denying that he ever wanted any of the money given her by a Chicago millionaire, Patterson's diary continues:

**WORRIED INTO CONSUMPTION.**  
"Oh, mother, I did not get T. B. from inheritance or bringing up. Ah, no, I was tortured, and worried to death, and so help me, God, I have seen as true in thought, word and deed to that woman I adored and loved as it was possible for God to make a man be, but from the day I was married until the day I took down sick, my every move was watched. I was threatened and attacked by hired fingers under the elevated one night near home and only my fleetness of foot saved my life. I would have been strangled to death and a verdict would have been held up. Oh, yes, a verdict! I kept all things silent because to mention them would lay my wife's good name open to question."

**From a woman.**

**FIELD AGAINST THE FAVORITES.**

KANSAS BOY IN COURT FOR KISSING THE GIRL.

Admitted to Act Only on the Defensive in Kissing Affairs Hereafter. Made a Ward of the Court and Permitted to Depart on Parole.

(BY DIRECT WIRE TO THE TIMES.) KANSAS CITY (Mo.) Nov. 26.—[Exclusive Dispatch.] Oliver Smith, 14 years old, of Turner, Kan., was in the Wyandotte County Juvenile Court yesterday where the principal of the school attended by Oliver, his teacher and the trustee officer, told Judge Sims Oliver's story.

"He will persist in kissing the girls," Miss Arnold, the teacher, said. "Several times I have caught him running up behind the girls and kissing them."

"Yes, Oliver has the kissing bee," the principal testified. "It does not seem to affect his longing for kisses to lecture him."

The trustee officer testified to the same thing.

"Did the girls ever protest against this promiscuous habit of kissing by Oliver?" Judge Sims asked.

"Well," the principal said, and he paused to think about the question. "Now that I think about it, I don't believe that I ever heard any protest."

That was the opinion of the entire jury. Judge Sims then lectured Oliver on the rudiments of kissing.

"Oliver, in case there is any kissing to be done, you should always act on the defensive," the judge told him. "Never be the aggressor in a case of that kind, and you will grow up to be a good man."

Oliver was made a ward of the court and paroled.

**ONE DEAD, ONE INJURED.**  
CHILLICOTHE (Tex.) Nov. 24.—Constable Charles Holloway was killed and Constable J. A. Doyle seriously wounded in a battle with two men wanted in connection with the recent robbery of the State Bank of Odell, at noon today. Police are pursuing the men, who are said to be afoot.

Grandest meeting of the campaign tonight at Temple Auditorium, Fifth and Olive streets! Go early and get a seat.

## THE TWELVE COMMANDMENTS OF THE AMERICAN FLAG.

(BY DIRECT WIRE TO THE TIMES.)

WALTHAM (Mass.) Nov. 26.—[Exclusive Dispatch.] Mrs. Ida L. Gibbs, well-known club woman, lecturer and leader of the Daughters of the American Revolution and other organizations, has composed a set of commandments on the use and forbidden abuse of the American flag. She is having these printed by hundreds of thousands for free distribution in the schools throughout the United States. Prominent D.A.R. women have written her offering to cooperate to distribute them as soon as they are delivered. The commandments follow:

"The American flag is the symbol of the brotherhood of man. It stands for courage, chivalry, generosity, honor.

"No hand must touch it roughly, no hand shall touch it irreverently. Its position is aloft, to float over its children, uplifting their eyes and hearts by its glowing colors and splendid promise, for under the Stars and Stripes are opportunities unknown to any other nation of the world.

"The government commands the people to honor their flag. Men and boys should uncover as they pass the vivid stripes which represent life, blood, brave men, and stars which shall shine forever.

"It must be raised at sunrise, lowered at sunset. It is no plaything of the hour. It is the birthright of integrity.

"It may not be used as a staff, or whip, or covering.

"It shall not be marred by advertisement nor desecrated on the stage.

"It was born in tears and blood; it was baptized in blood and tears.

"It has floated since June 14, 1777, over a country of benevolence, refuge and progress.

"It must always be carried upright.

"To bear the Star Spangled Banner is an honor. To own one a sacred trust.

"It is the emblem of freedom, equality and justice for every person and creature as it floats unvanquished, untarnished over the open door of free education."

**REPULSED BY REBELS.**

(Continued from First Page.)

constitutional articles. The oath was as follows:

"My policy and choice of officials have not been wise; hence the recent troubles. Fearing the fall of the Sacred Dynasty, I accept the advice of the National Assembly. I swear to uphold the nineteen constitutional articles and organize a Parliament, excluding the nobles from administrative posts. I and my descendants will adhere to it forever. Your heavenly spirits will see and understand."

The lower classes believe that this declaration means that peace will be restored, but the educated classes are not impressed. They think Yuan Shi Kai is so embarrassed he would return home, did he not fear that his departure would be the signal for a panic, and Manchian outbreaks.

The latest consular reports from Nanking say the revolutionary forces suffered enormous losses, but that they pressed forward irresistibly and finally routed the imperialists, who fled into the city for shelter.

The Nanking batteries opened fire and deafening cannonade was still going on when the dispatches were sent.

**TRAFFIC IMPERILED BY SWARM OF PIRATES.**

(BY A. P. NIGHT WIRE TO THE TIMES.) HONGKONG, Nov. 26.—The West River is swarming with pirates and traffic to Wu Choo and Kwangsi Province is seriously imperiled. The steamship companies are greatly alarmed and are considering the suspension of their services. They are continuing for the present with armed crews.

Much indignation has been aroused by the attack by pirates on the British steamship Shiloh—a few days ago, when Chief Officer Nicholson was murdered. The people are becoming clamorous for intervention of some kind to put down the lawlessness.

In 1904, owing to piratical outrages, guards were placed on all the steamships and a number of precautions were taken, but later, because of overconfidence that the British flag was immune from attack, these precautions were relaxed. The rifles have become rusty and there is no ammunition on the steamers carries a cannon, but no shells.

Canton is said to be practically in the hands of brigands. Grave troubles are feared. Gen. Lenz is almost powerless to maintain order and contemplate flight. Some anxiety is felt by the foreigners.

**CELESTIAL PREMIER RIGHT-ABOUTS AGAIN.**

(BY A. P. NIGHT WIRE TO THE TIMES.) PARIS, Nov. 26.—The Peking correspondence of the Temps says that Yuan Shi Kai has again changed his attitude and has ordered a resumption of hostilities in Nanking, whither reinforcements have been sent. It is rumored that he is again strongly supporting the dynasty, imposing certain conditions. The change is attributed to the rally in Shan Tung, and it is also probable, says the correspondent, that Yuan can more easily obtain the financial support he wants by breaking with the rebels.

**SAYS WU TING-FANG WILL BE PRESIDENT.**

(BY A. P. NIGHT WIRE TO THE TIMES.) SIOUX CITY (Iowa) Nov. 26.—Wu Ting-fang, former envoy extraordinary to America, will be the first President of China.

This is the forecast of Bishop Wilson Feeley Lewis, of the Methodist Episcopal Church, resident in China, who arrived in Sioux City today.

Mr. Wu, now a leader among the revolutionists, the bishop says, is better fitted than any other leader to take up the governmental reins.

In an interview Mr. Wu told Bishop Lewis that the republic was coming into being and that he was coming into details as to the revolutionary plans.

**MANCHU PENSIONS WILL BE CONTINUED.**

(BY A. P. NIGHT WIRE TO THE TIMES.) PEKING, Nov. 26.—It is said that Manchu pensions will be continued. In this it is considered that the government is acting wisely, otherwise the long-dreaded disorders in Peking might begin. Yuan Shi Kai says he expects to conclude loans with French financiers and later with the four nations group. Members of the legations believe he will succeed, if he retakes one of two provinces.

Seemingly, Premier Yuan has a difficult task before him to reconvert the north, as he declares he intends to do. The sixth army division, which is now being employed against Shen Si, is typical of the uncertainty of the Chinese character. After the assassination of Gen. Wu, this division adopted the rebel arm-bands for three

days. In then re-hosted the dragon flag and is now assisting in the attack on Shen Si.

Albert W. Postell, American Consul at Chung King, the most important port of western Yangtze, has not notified the government that Chang King has gone over to the rebels peacefully.

**MURDER OF FOREIGNERS HAS BEGUN IN CHINA.**

(BY A. P. NIGHT WIRE TO THE TIMES.) HANGHAI, Nov. 26.—Reports of murders of foreigners in the province of Shen Si and Shan Si have been received here with the greatest apprehension. It is quite evident that a strong element of Boerism remains within the sphere of Peking, where the government might be expected to be in control. Throughout the South, which is held by the revolutionaries, not a single case of injury to foreigners, except what may be attributed to accident, has occurred.

Trade has been prostrated, and there is a growing feeling among the merchants that some definite action should be taken to prevent further outrages.

The throne seems helpless to prevent murders by the Boers, who are in no way connected with the revolutionists, while on the other hand the insurgents are defending the missionaries and punishing offenders with death throughout the vast trading districts in South and Central China. The commercial houses of all nationalities are losing heavily.

## TELLS OF NEW TRIUMPH.

Arctic Explorer Confirms Report of Discovering Eskimos Who Had Never Before Seen White Men.

(BY DIRECT WIRE TO THE TIMES.) EDY DONTON (Albarta) Nov. 24.—[Exclusive Dispatch.] After spending three and a half years on the Arctic trails in the wilds of Far North, J. C. Melville has returned to civilization, bringing confirmation of the news of his discovery of a tribe of Eskimos that had never seen a white man before.

These people show many traits common to the European races, he declares, and are probably actually the descendants of survivors of Sir John Franklin's two ships that were lost in those regions in the middle of the nineteenth century and never heard of again. So great is the struggle for existence within these almost unknown regions in the Arctic Circle that the Eskimo infants are destroyed lest they prove too great a strain on the slender resources of the tribe. A mother will bring up one girl and one only. If any other girl baby is born it is exposed to the cold to kill it. Boys, on the other hand, are regarded as an asset to the tribe.

## SHOPS WORK FULL HANDED.

More Men Employed Than When Strike Began.

Southern Pacific Turns Out All Work Required.

Rock Island Shopmen Agree to New Schedule.

[BY DIRECT WIRE TO THE TIMES.]

SACRAMENTO, Nov. 26.—[Exclusive Dispatch.] Two thousand of five men were at work in the Southern Pacific shops yesterday. Every department is working. According to Superintendent Hiram W. Sheridan, the company has all the help it needs. Every department is turning out the work necessary to meet the needs of the company.

The strike has now been on nine weeks. On the day that it was called, the total number of employees was 1904. These are official figures and show that there are more employees in the shops today than there were when the strike was called. The strikers are still hopeful of victory and declare the company will not long be able to do without them, but the figures indicate that the strike is lost.

### SHOP STRIKE AVERTED.

Ultimatum Offered by Rock Island Is Finally Accepted by Company's Shop Employees.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, Nov. 26.—The threatened strike of the 1900 shop men employed by the Chicago, Rock Island and Pacific Railroad, was averted yesterday, when the men accepted the peace terms offered by the company, and signed new wage schedules for another year.

The dispute was begun five months ago when the shopmen, through their local union presented a list of thirty-four grievances. A series of conferences followed and this list was reduced to six, both sides making concessions. The six points finally in dispute, involved an increase of 2 cents an hour, to wages, and a change in working conditions.

Railroad officials refused these demands, declaring that general business conditions did not warrant any increase in operating expenses. Officers of the international union yesterday, presented the case to President. A. J. Spaw, Vice President. They were unsuccessful in their appeal and today, accepted the terms offered by the railroad in an ultimatum issued November 16.

### WILLING TO DISOLVE.

Alleged Members' Trust Surrender to the Department of Justice to Avoid Prosecution.

[BY A. P. NIGHT WIRE TO THE TIMES.]

WASHINGTON, Nov. 26.—The "Trusting trust," which government officials say controls the sales of munitions supplies in most of the Rocky Mountain and Pacific Coast regions, has capitulated to the Department of Justice and is seeking to avoid court proceedings. "Trust," it became known today, will present their case of dissolution in a conference to be held later in the week. The evidence against the combination, it was said today, is strong. United States Dist. Atty. McCormick of Los Angeles, who is familiar with the workings of the combination, has been ordered to Washington by Mr. Wickersham, to be present in the conference.

### MAYOR RESIGNS OFFICE.

After Serving in Plural Capacity Three Weeks North Yakima Official Resigns Office.

[BY DIRECT WIRE TO THE TIMES.]

TACOMA (Wash.) Nov. 26.—[Exclusive Dispatch.] After serving less than three weeks as police magistrate of North Yakima, A. J. Spaw, commissioner of public safety, who is also Mayor and Chief of Police, resigned the first mentioned office yesterday. It is expected Attorney Miller will be appointed at a salary of \$75 a reduction of \$15 monthly from the previous salary.

"I do not resign because I cannot do the job, nor because I am afraid of the job," said Mayor Spaw, "but

my right to serve as a police judge will undoubtedly be contested if I star in."

"I have found that the office does not require work enough to warrant a salary of \$100 per month and I don't know but \$50 per month would be enough."

The question which caused Mayor Spaw's resignation was raised in a recent case brought before him as magistrate. It was planned to ask for a writ of prohibition against his performing both legislative and judicial duties.

TO MARRY SECOND TIME.

Divorced Husband and Wife in Oregon Town File Peculiar Agreement of Advance.

[BY DIRECT WIRE TO THE TIMES.]

PENDLETON (Or.) Nov. 26.—[Exclusive Dispatch.] Moved by the fact that their first matrimonial venture had not proved a complete success, J. B. and Viola Miller yesterday filed a pre-marriage agreement with County Recorder Burroughs preparatory to becoming husband and wife for the second time.

They were married several years ago. Later they were divorced and after much difficulty their property was divided equally between them. Since that time their individual financial holdings have greatly increased until each is moderately wealthy, and the terms of the contract just filed provide for future contingencies by agreeing that their property rights shall remain separate notwithstanding their marriage relations.

Reliteration.

ANOTHER DENIAL FROM REV. GATES.

MERRITT STORY REPUDIATED BY PASTOR-AGENT.

[BY A. P. NIGHT WIRE TO THE TIMES.]

SAYS ROCKEFELLER NEVER CALLED A LOAN TO MERRITT AT ANY TIME AND ONLY FAILED TO EXTEND THEIR OPTION BECAUSE THEY NEVER ASKED HIM TO DO SO.

NEW YORK, Nov. 26.—The Rev. Dr. Gates, Rockefeller's pastor in his denial of the Merritt charges said: "I have to say that not one of the charges which Leonidas Merritt said Mr. Rockefeller committed or that I committed in his behalf were ever done by either Mr. Rockefeller or me, and that both Mr. Rockefeller and I on oath, denied all the wrong acts specifically and in detail eighteen years ago. I need not add that every one of the charges which had made the charges or had joined in making them withdrew the charges over his own signature."

"But I wish once more to deny not only in general but in detail, these outrageous charges of Leonidas Merritt. Leonidas Merritt was never invited to come to New York by Mr. Rockefeller or his agents."

"Neither Mr. Rockefeller nor his agents ever solicited Leonidas Merritt or any one else to unite in a consolidation of iron properties. The consolidation was conceived and effected by Mr. Merritt and his friends without solicitation from Mr. Rockefeller or his office. Mr. Rockefeller never made a demand on call loans of any kind to Leonidas Merritt or any of the Merritt brothers. All the loans made by Mr. Rockefeller to the Merritts were time loans and neither on the date of maturity, nor at any other time, did Mr. Rockefeller ever demand payment of these loans."

"They were permitted to run on their own credit. Mr. Rockefeller was perfectly willing to carry them. They know well that the pressure on them came from other creditors of long standing, not Mr. Rockefeller."

Mr. Gates goes on to say that Mr. Rockefeller failed to extend the option of the Merritts from year to year, because they never asked him to, instead of being a "business suit against him."

The rise in the stocks, he says, was due to the adaptation of fortunes to the rise because of its cheapness, but mainly because Mr. Rockefeller gave the whole enterprise his financial backing, pouring "million after million" into the business and relieving the Merritts to carry the loss, until in 1901, when he sold out his stock, his advances amounted all told to nearly \$10,000,000, this sum being paid from his purchase of stock.

The request to compromise the Merritt lawsuit came from Merritt and not from Mr. Rockefeller, Mr. Gates declared.

After referred to the statement signed by the Merritts, Mr. Gates concludes: "When they did retract the money previously paid them, amounts to \$125 a share on all stock which they had sold, which was its then market price."

## INTERVENTION IN MEXICO.

(Continued from First Page.)

overthrew the Federal and Maderist forces alike in Morelos, Guerrero, and Puebla.

Juan Banderas, who started a revolt of his own in Sinaloa some months ago, is in full control of the State, his capital, Culiacan, and most of its revenues, has forced the nominal Governor, Dr. Renteria, to give way for him, and has driven Gen. Felipe Ochoa, who was sent to restore peace in the State, back to the mountains.

Juan de Dios Barrios, whose first name translated means "John of God," is in control of the mountains of Oaxaca, and his word is law for some distance over into Tabasco, where a dozen towns have taken him as their leader and set up their own governments.

The fight between Tula Outlines and San Cristobal de las Casas for the capital of the great State of Chiapas is merely on the shape of a small guerrilla warfare in which three or four are killed almost every day.

ON THE WAY.

Jose Gomez, who gathered fifteen hundred men and killed more than a hundred Federals and volunteers in Juchitan and San Jeronimo, in southern Oaxaca, because he did not like the jefe politico (justice of the peace) appointed there, is on his way to this city, defying the government, bringing a guard of 200 men with him and declaring that he will treat with no one but Madero.

These are the uprisings Madero must put down before he can have the peace for which the newspapers have reported him as ardently desiring. The paper adds that so far not one of them has been even suppressed, far from crushed, and Zapata even became so bold as to attack, and capture three towns within a radius of fifteen miles of this capital a few weeks ago. For these crimes, committed within the Federal district, one was put in jail, and the rest the Federal troops sent out could do was to set a drawn battle with the invading band.

JUAREZ IS PACIFIC IN SPITE OF ELECTION.

[BY A. P. NIGHT WIRE TO THE TIMES.]

JUAREZ (Mex.) Nov. 26.—No disorders occurred today in the first free municipal election ever held in this city. Although the ballots will not be counted until tomorrow, it is believed by persons in close touch with the situation that Col. Juan Medina, has been elected Mayor. A few months ago Medina was deposed from the office of Mayor by Gov. Abraham Gonzalez. He was succeeded by Guillermo Alvarez, who was his opponent in today's election.

MORE FOLLOWERS OF REYES ARRESTED.

[BY A. P. NIGHT WIRE TO THE TIMES.]

CANANEA (Mex.) Nov. 26.—More followers of Reyes were arrested last evening. Attorney Linares was given his freedom this morning. Appearances show the Reyesistas in Cananea were almost ready to strike when arrested.

Room.

ELEVEN CARS FOR GOVERNORS.

SPECIAL TRAIN WILL LEAVE ST. PAUL TODAY.

[BY A. P. NIGHT WIRE TO THE TIMES.]

ST. PAUL (Minn.) Nov. 26.—An eleven-car train, known as the Western Governors' special, will depart from St. Paul at 9 o'clock tomorrow night for a twenty-day trip to twenty-one cities of the East and Middle West, the first time in the history of the country such a trip has been undertaken. Nearly 4000 miles will be covered by the special from the hour of its departure until its return to St. Paul, December 18. The cities where the special will stop have an aggregate population of more than 18,000,000 persons.

The "patronage home industry" spirit of the West is the motive of a Commercial Union of the Eastern and the Middle Western States.

The "patronage home industry" spirit of the West is the motive of a Commercial Union of the Eastern and the Middle Western States.

Elaborate arrangements have been made to entertain the men making up the party. The train will be met upon entering a State by the Governor of that State and other prominent men. They will accompany the train to the border line and turn it over to the Governor of the next State.

There will be ten State exhibits and nine Governors will make the trip. Those who arrived today were Governor Harvey of Idaho, West Virginia, Venney of South Dakota and Shafer of Colorado. Governors Odell of Nevada, Carey of Wyoming, Norris of Montana and Burke of North Dakota are expected to arrive in the morning.

The States represented in the special will be Minnesota, North and South Dakota, Wyoming, Montana, Oregon, Washington, Idaho, Colorado and Nevada.

MARRIED TO NOBLEMAN.

Miss Mildred Sherman, New York heiress, becomes the Bride of Lord Camoys.

[BY A. P. NIGHT WIRE TO THE TIMES.]

NEW YORK, Nov. 26.—Miss Mildred Sherman, youngest daughter of Mr. and Mrs. William Watts Sherman, and heiress to a million, was married yesterday to Lord Camoys, a young English nobleman. The bride's father, ill for some time, was wheeled in an invalid chair to the drawing room, where the ceremony was performed in the presence of members of both bride's immediate family and the bridegroom's two brothers.

DENIES AIRSHIP STORY.

WASHINGTON, Nov. 26.—[By A. P. Night Wire.] The Italian Embassy today issued a statement denying reports from Constantinople that Italian aeroplanes had dropped bombs on a hospital at Almar.

## SIR EDWARD TO BEAR BRUNT.

WILL SHOW HIS CARDS IN PARLIAMENT TODAY.

Foreign Secretary Will Undertake to Justify His Government's Course in the Situation Brought About by English and French Longings for More Land.

[BY A. P. NIGHT WIRE TO THE TIMES.]

LONDON, Nov. 26.—The British press and public have asked for time to consider the German Foreign Minister's accounts of the Moroccan negotiations with Sir Edward Grey. Opinion has taken a decided turn in favor of the government's policy.

One reason for the reaction is that Herr von Kiderlen-Waechter's statement to the Reichstag Committee ignored several important steps in the negotiations. Another is the feeling that any sort of repudiation of Sir Edward Grey would be taken by the Germans as a German victory.

The publication of the secret clauses of 1904, relating to Egypt and Morocco, which proved to be of minor importance, has dispelled the idea that Great Britain and France have a definite military alliance.

An uncomfortable feature of the situation is that the Foreign Secretary is bound to justify the government's course in next Monday's speech, but in the account of the negotiations, Herr von Kiderlen-Waechter's on important points, Anglo-German hostility and recriminations are certain to break out.

The Pall Mall Gazette says Germany demanded the dismissal of Lloyd-George from the Cabinet after his famous speech. The paper adds that the Foreign Secretary absolutely declined to consider such a suggestion and that Germany stayed her hand from war at the last moment through the influence of financiers.

Certain facts seem to establish that England and France had arranged a plan for a joint campaign which in the dispatching of 18,000 British soldiers to the continent, almost the whole regular army, leaving the defense of the country to the territorial forces, that several generals on the French staff visited England for a conference and that the government stopped the railroad strike by confiding to the directors and strikers' committee the management of the war and appealing to their patriotism.

STOCKS TREND UPWARD.

Market Indicates Confidence in the Outlook and Relief from Anxiety Over Prosecutions.

[BY A. P. NIGHT WIRE TO THE TIMES.]

NEW YORK, Nov. 26.—Through the ups and downs of the movements of stocks last week there was a sustained undercurrent of firmness. The volume of dealing was on a diminishing scale and the attitude of speculation apparently one of waiting.

The absorptive power shown by the market the week before, in the face of selling to realize speculative profits, had an encouraging effect on sentiment and feeling from the anxiety pushed and the market responded to occasional demands for special stocks with sharp advances. The upward trend placed the high level of the week rather above that touched in the first recovery from the slump caused by the suit to dissolve the United States steel trust.

The main factors in the firmness of the market are growing confidence in the industrial and commercial outlook and relief from the anxiety caused by the government's trust prosecutions. The purchase of large numbers of cars by the railroads was a decisive influence toward the encouragement of the steel trade.

The opinion was expressed frequently that public sentiment had become more definitely in favor of the protection of the good citizen in the methods of doing "big business."

Southern railroad stocks were especially strong. They were helped by the larger dividends for Atlantic Coast Line and Cincinnati, New Orleans and Texas Pacific, and by rumors of a Louisville and Nashville stock issue.

Other factors affecting speculative sentiment were the statement of foreign trade for October, which, in some particulars, established a new record for that month, and the larger demand for copper.

EQUAL SUFFRAGE URGED.

CHICAGO, Nov. 26.—United States Senator Works of California urged that woman's suffrage be made a plank of the insurgent Republican platform in Illinois, in an address delivered yesterday before the Insurgent Republican League.

"No other State in the Union needs such reforms as suffrage, the initiative, referendum and recall so badly as does Illinois,"

## A Reasonable Plea For the Stomach.

If Your Stomach is Lacking in Digestive Power, Why Not Help the Stomach Do Its Work—Especially When It Costs Nothing to Try?

Not with drugs, but with a reinforcement of digestive agents, such as are naturally at work in the stomach? Scientific analysis shows that digestion requires pepsin, uterogenic ferments, and the secretion of hydrochloric acid. When your food fails to digest, it is proof positive that some of these agents are lacking in your digestive apparatus.

Stuart's Dyspepsia Tablets contain nothing but these natural elements necessary to digestion and when placed at work in the weak stomach and small intestine, supply what these organs need. They stimulate the gastric glands and gradually bring the digestive organs back to their normal condition.

Stuart's Dyspepsia Tablets have been subjected to critical chemical tests at home and abroad and are found to contain nothing but natural digestives.

Chemical Laboratory, Telegraphic address, "Difidino," London. Telephone No. 11023 Central. 20 Cullum St., Fenchurch St., E. C.

London, 8th Aug. 1905.

I have analyzed most carefully a box of Stuart's Dyspepsia Tablets which I bought myself at a city chemist's shop (for the purpose) manufactured by the F. A. Stuart Co., 86 Clerkenwell Road, London, E. C., and have to report that I cannot find any trace of vegetable or mineral poisons. Knowing the ingredients of the tablets, I am of opinion that they are admirably adapted for the purpose for which they are intended.

(Signed) John H. Brooke, F.R.C.S., F.C.S.

There is no secret in the preparation of Stuart's Dyspepsia Tablets. Their composition is commonly known among physicians, as is shown by the recommendations of 40,000 licensed physicians in the United States and Canada. They are the most popular of all remedies for indigestion, dyspepsia, water brash, insomnia, loss of appetite, melancholia, constipation, flatulency and kindred disorders originating from improper digestion and assimilation of food, because they are thoroughly reliable and harmless to man or child.

Stuart's Dyspepsia Tablets are at once a safe and a powerful remedy, one grain of these tablets being strong enough (by test) to digest 2000 grains of steak, eggs and other food. Stuart's Dyspepsia Tablets will digest your food for you when your stomach can't.

Ask your druggist for a fifty cent box or send to us direct for a free trial sample package and you will be surprised at the result. F. A. Stuart Co., 150 Street Ritz, Marshall, Mich.

San Francisco Hotels.

HOTEL NORMANDIE, SAN FRANCISCO. Suite and single rooms. Clean, comfortable. Five minutes from San Francisco's business center. Well lighted and ventilated. European plan \$1.50 per day and up. DAY MORNING.  
LIFE'S SEAMY SIDE.  
THREE SHOT BY FUGITIVE.  
Resisting Arrest Shows Bare Marksmanship.  
Policeman Dead and Another Fatally Hurt.  
Francisco Ferry Crowd Thrown in a Panic.  
[BY DIRECT WIRE TO THE TIMES.]  
SAN FRANCISCO, Nov. 26.—Police Officer Charles G. Castor is dead and another policeman, a restaurant man, was wounded shortly before noon today by a fugitive, a Greek, who is said to be wanted on charges of murder in Vallejo, Cal.  
The attempt was being made to arrest the fugitive, when he was shot at the ferry building, when shooting occurred. Prandogios, a Greek, was shot down by George Moom, a policeman, while trying to escape. He was captured by Police Sergeant J. O'Keefe.  
[BY DIRECT WIRE TO THE TIMES.]  
SAN FRANCISCO, Nov. 26.—Police Officer Samuel and Thomas Conroy, constables, learned last night that Prandogios, accused of having shot his uncle at Vallejo, was in San Francisco. Prandogios is alleged to have dangerously wounded a Greek at Vallejo. The local police department was notified by Constable Conroy, and detectives were sent to arrest Prandogios, for whom a reward of \$600 was being offered by relatives of his alleged Greek uncle.  
The ferry building shortly before three o'clock, Prandogios was discovered. Policemen Castor and Conroy, and a detective, went to arrest him. Prandogios, who had no warrant, attempted to escape through the thicket. Policemen Castor and Conroy, and a detective, went to arrest him. Prandogios, who had no warrant, attempted to escape through the thicket. Policemen Castor and Conroy, and a detective, went to arrest him. Prandogios, who had no warrant, attempted to escape through the thicket.

TO DEMOLISH A DISTILLERY.  
Women and Girls of Missouri Town Will Celebrate Thanksgiving.  
[BY DIRECT WIRE TO THE TIMES.]  
MYRTLE (Mo.) Nov. 26.—[Exclusive Dispatch.]—Armed with hatchets, axes, crowbars and other weapons, the women and girls of Myrtle will celebrate Thanksgiving by demolishing a distillery which was bought by church people in order that the community might be rid of it. Myrtle is a prohibition town. Just across the State line in Arkansas is a small distillery. The church people of Myrtle decided that their ordinance were of small value as long as the tapers could step across and buy. So a number of church men, headed by W. T. Taylor, the postmaster, proposed that the distillery be bought and destroyed. The money was paid over and the distilling plant was brought here and set up in the public square.  
[BY DIRECT WIRE TO THE TIMES.]  
WASHINGTON, Nov. 26.—According to the weekly bulletin issued by the weather bureau, an atmospheric disturbance of importance to cross the United States will appear on the Pacific Coast Wednesday or Thursday and prevail over the Middle West at the close of the week.  
"This disturbance," says the bulletin, "will be preceded by a general change to warmer weather, be attended by rain in southern and snow in northern districts, and be followed by a pronounced change to colder weather which will make its appearance in the Northwest about December 2. It is probable that this disturbance will cause general rains the latter half of the week on the Pacific Slope."

WILL ORGANIZE A FIGHT AGAINST OSLER'S THEORY.

Anti-Forty-five-Year Age Limit League in Chicago to Begin a Campaign Designed to Combat Attitude of Many Business Houses in Refusing Employment to Men of Middle Age—Policy Declared Unjust.

[BY DIRECT WIRE TO THE TIMES.]  
CHICAGO, Nov. 26.—[Exclusive Dispatch.]—"Down with Oslerism," will be the slogan at a mass meeting on the West Side Tuesday evening. This gathering will start a vigorous campaign by the Anti-Forty-five-Year Age Limit League recently incorporated in Illinois "to end man's inhumanity to man."  
The motive for the establishment of the league has been given by the arbitrary policy of many business concerns in refusing employment to men who have reached the age of 45. This policy is declared, in the printed objects of the organization as "unjust, unreasonable, illogical, barbarous and indefensible."  
It is denounced as illogical because "it has a tendency to destroy worthy ambition when life's period of productive industry is only half spent, and

GIRL GRADUATE CHARGED WITH STEALING HORSES.

[BY A. P. NIGHT WIRE TO THE TIMES.]  
BOISE (Idaho) Nov. 26.—[Exclusive Dispatch.]—A graduate of one of the most prominent private schools of this city, educated and refined, the case of pretty Miss Marion Kirkpatrick, an orphan girl, cast into jail in this city on the charge of horse stealing, presents some remarkable features.  
Miss Kirkpatrick is now the personal ward of Mrs. R. L. Nourse, wife of a prominent and wealthy physician, and a hard legal battle will be made by the women's clubs to prevent her conviction.  
She stoutly maintains her innocence, but from the story of the alleged crime it appears that Miss Kirkpatrick, who has had experience on the range and rides a horse with the ease of a cow girl, "rounded up" a bunch of horses belonging to an Owyhee county rancher near Oreana

TWENTY-GREATEST MEN, ACCORDING TO CARNEGIE.

[BY DIRECT WIRE TO THE TIMES.]  
CHICAGO, Nov. 26.—[Exclusive Dispatch.]—In an interview on Saturday, Andrew Carnegie gave a list of the twenty greatest men in history. The men and their achievements are:  
William Shakespeare, poet and dramatist.  
Edward Jenner, discoverer of vaccination.  
James B. Nelson, inventor of use of hot blast in smelting furnaces.  
Abraham Lincoln, liberator of the American slaves.  
Robert Burns, whose works are a favorite reading among all English speaking people.  
Johannes Gutenberg, inventor of printing art.  
Thomas A. Edison, inventor of duplex telegraph, carbon telephone transmitter, phonograph, incandescent electric lamp and other revolutionizing electric devices.  
Sir William Siemens, noted for researches in electricity.

GAIN IN STEEL OUTPUT.  
Downward Tendency in Prices Checked and Mills Show Increase of Two and Three Per Cent.  
[BY A. P. NIGHT WIRE TO THE TIMES.]  
NEW YORK, Nov. 26.—Although the railroads placed fewer orders for equipment last week, the steel mills continued to gain in tonnage through new orders and specifications on contracts for bars, plates and shapes from equipment companies. As a result of the larger tonnage booked, the downward tendency of prices seems to have been checked and the steel mills increased operations from 2 to 3 per cent.  
Contracts for only \$16 cars were placed by American roads, but Canadian lines contracted for 2000.  
Both rail and locomotive orders were light. The principal activity last week was in structural and fabricated steel for buildings and bridges. Such contracts called for 35,000 tons of steel shapes. The railroads placed orders for bridge work requiring 4800 tons. The contract for the Los Angeles water system siphons, calling for 2400 tons of plates, were placed with a Pittsburgh concern. Bids were submitted on 30,000 tons of new building work.  
The principal feature in pig iron was the large volume of business secured by southern furnaces, aggregating 120,000 tons. In all districts, sales aggregated 195,000 tons.

TREED BY A BEAR.  
When Bruno Climbed After Freezing Colorado Man He Faked Gun in His Mouth and Fired.  
[BY DIRECT WIRE TO THE TIMES.]  
GRAND JUNCTION (Colo.) Nov. 26.—[Exclusive Dispatch.]—After being held prisoner in a tree fourteen hours during a freezing night, Joseph Comstock, a rancher, finally killed a 300-pound bear by shoving a rifle down the animal's throat and blowing its head off.  
Comstock became separated from his companions on a recent hunting expedition and toward evening trailed a bear. His small caliber repeating rifle only served to anger the animal, which compelled the hunter to climb the tree.  
After an all night vigil the bear at dawn became the aggressor and started to climb the tree. As soon as the animal was close enough, Comstock shoved the muzzle of the rifle down the bear's throat, killing it instantly.

Middle-aged.  
[BY DIRECT WIRE TO THE TIMES.]  
CHICAGO, Nov. 26.—[Exclusive Dispatch.]—"Down with Oslerism," will be the slogan at a mass meeting on the West Side Tuesday evening. This gathering will start a vigorous campaign by the Anti-Forty-five-Year Age Limit League recently incorporated in Illinois "to end man's inhumanity to man."

ITALIANS ROUT TURKS IN FIERCE ENGAGEMENT.

[BY DIRECT WIRE TO THE TIMES.]  
ROME, Nov. 26.—[Exclusive Dispatch.]—Dispatches from Tripoli report fierce fighting yesterday outside of Tripoli in Derna. The Italians routed the Turks. A force of Turks and Arabs of great strength came in sight of the trenches about 1 o'clock in the morning, and immediately the action became general. Three machine guns, a section of mountain artillery and a detachment of soldiers were landed from the battleship Napoli.  
The action lasted fiercely all day till sundown.  
The Turkish force disappeared in the darkness leaving forty dead and eighty wounded. The Italian force retreated to Derna, with twelve killed and fifty wounded.  
[BY DIRECT WIRE TO THE TIMES.]  
CONSTANTINOPLE, Nov. 26.—The Ministry of War has received a report that an Italian war fleet has been sighted early this morning. The fleet was only a mile and a half from the entrance to the Dardanelles.  
The Ministers of War and marine have left for the Dardanelles.  
It is believed a blockade will commence immediately. The Italian fleet has entered the Sea of Marmora and it is believed an engagement with the Turkish fleet is imminent.  
A serious anti-Armenian rising is reported at Mardin, in which one Armenian was killed and many were wounded. The French Consul has arrived there from Diarbekir to assure himself of the security of the Catholic missions.

TURKS ARE WORSTED BY MODERN ROMANS.

[BY A. P. NIGHT WIRE TO THE TIMES.]  
TRIPOLI, Nov. 26.—The Italian advance, it is announced, was a complete success at every point. The fighting, which lasted all day, ended at nightfall by the Turks retreating from all their positions.  
[BY A. P. NIGHT WIRE TO THE TIMES.]  
TRIPOLI, Nov. 26.—An important movement is now in progress with the object of driving the Arabs out of the oasis and of extending the Italian front. The action, which was begun at daybreak, was opened with an attack on Ft. Meiri by the Sixth Brigade from Boumeliana on the west front.  
After several hours fighting the Italians succeeded in dislodging the Arabs, and Gen. Frugones, commander of the Italian forces, ordered the Third Division on the east front to advance toward Honi. Part of the Sixth Brigade joined the Third, taking a position so as to protect the division from attack in the di-

BLOODSHED CAUSED BY DISORDERLY PICKETS.

[BY A. P. NIGHT WIRE TO THE TIMES.]  
Bakersfield, Nov. 26.—J. E. Calhoun was killed, a man named Fickler, was shot in the back of the head, and two officers, S. W. Hardwick, and P. C. Perry, were arrested on a charge of murder, as the result of trouble between pickets for the striking railway shopmen and strikebreakers here tonight.  
The pickets and strikebreakers began their trouble in the street, and some of them ran through a saloon near by. The saloon-keeper, assisted by Calhoun, who was neither a picket nor a strikebreaker, and who happened to be in the saloon at the time, tried to close the place so there would be no fighting there.  
The officers are said to have beaten the saloon doors down and to have shot Calhoun when he tried to leave the place by the rear door. Fickler, whose injuries are not expected to prove fatal, was shot, it was alleged, when he tried to disarm Officer Perry.

TRIPOLI, Nov. 26.—The Italian advance, it is announced, was a complete success at every point. The fighting, which lasted all day, ended at nightfall by the Turks retreating from all their positions.  
[BY A. P. NIGHT WIRE TO THE TIMES.]  
TRIPOLI, Nov. 26.—An important movement is now in progress with the object of driving the Arabs out of the oasis and of extending the Italian front. The action, which was begun at daybreak, was opened with an attack on Ft. Meiri by the Sixth Brigade from Boumeliana on the west front.  
After several hours fighting the Italians succeeded in dislodging the Arabs, and Gen. Frugones, commander of the Italian forces, ordered the Third Division on the east front to advance toward Honi. Part of the Sixth Brigade joined the Third, taking a position so as to protect the division from attack in the di-

rection of Ainara and to prevent a junction of the Arabs and Turks. At the time of filing this message the Italian extreme right was hotly engaged against the Turk and regulars.  
The new front, if the movement is successful, will extend from Meiri to Honni. As soon as the Italians are established reinforcements will be rushed up to positions strongly entrenched by the engineers.  
[BY A. P. NIGHT WIRE TO THE TIMES.]  
DEENA (Tripoli) Nov. 26.—An Italian reconnaissance on the plateau beside the city yesterday resulted in an encounter with the Turks in force. The fighting lasted all day, both sides retiring on their positions. The Italian casualty list numbers twelve killed and thirty-eight wounded.  
[BY DIRECT WIRE TO THE TIMES.]  
Aero Club Official to Visit San Diego to Witness Trials of Candidates For Aviators' Licenses.  
Arrangements are being made by the officials of the Aero Club of San Diego to have H. L. V. Twining, official observer of the Aero Club of America, witness the flights of the aviators now at North Island across the bay from San Diego.  
Five students are rapidly completing the course at the Curtiss camp under the supervision of Lieut. J. W. McCluskey, formerly of the U. S. Marine Corps and now on the retired list. Owing to the strong winds that usually prevail during the afternoon, the qualifying flights for aviator licenses will be made at an early hour.  
Glenn H. Curtiss is expected to arrive here the latter part of the week on his way to San Diego. One of his latest hydroaeroplanes embodying several new and original ideas has been shipped from the factory at Hammondsport, N. Y., and will be tested by him upon arrival.  
[BY DIRECT WIRE TO THE TIMES.]  
Hammer of Gun Catches in Clothing and Weapon's Load Is Sent into Youth's Shoulder.  
During a boating trip on Balboa Bay in company with a youthful companion, Emmet Condee, the 18-year-old son of C. H. Condee, a searcher of titles with offices in the Higgins block, accidentally shot himself in the right shoulder late yesterday afternoon while trying to change the position of a gun which he carried in his hands.  
The injured youth was taken to the Pacific Hospital for treatment. After making an examination of the wound surgeons announced that there was a good chance of saving the mangled shoulder although it is possible that the boy will be crippled for life.  
Condee said that he was in the boat with Dick Fish, a companion, and that the hammer of the weapon caught in his jacket when he went to place the gun on a seat.

Names and Customs Change Since He Left That Dear Siberia Far Away.  
Assuming that his own Russian cognomen was too long to be pronounced by the average American, a stalwart Siberian assuming the name of William Jeffries in honor of the former champion, was arrested last night at No. 409 Banning street on a charge of flourishing a revolver in the face of fellow-countryman when requested to leave the latter's apartments.  
After being disarmed by detectives the Russian explained that he simply had called in accordance with the customs of his own country and was greatly surprised when his former friend ordered the visitor to leave.

## RE OR'S BY WIN

# Postscript: Second Edition.

RE ORTS BY WIRE IN THE EARLY MORNING HOURS.

## ST BEFORE GOING TO PRESS

Gathered From Far and Near After 2 O'clock A.M.

The Very Latest.

OLD CONSISTORY  
IN ROME TODAY.

Bishop of Boston Meets  
the Pope.

Nationalists Are Play-  
ing Wait Game.

Florida Wreckers Are  
Killed by Explosion.

Man Gets Religion and Returns  
Tools, Stolen Years Ago, With  
Interest.

CONSCIOUS STRUCKEN.

A trowel and putty knife, stolen  
several years ago, were returned  
with 50 cents interest to the residence  
of M. Hurwitz, No. 4512 South Figueroa  
street, last night. When Hurwitz,  
who is the proprietor of a downtown  
moving picture theater, returned to  
his home, with the members of his  
family, a package was found outside  
of their door.

Fearing that the package might  
contain explosives, Hurwitz notified  
the University police station. Patrol-  
man J. H. Wrenner was sent to the  
house. Upon examining the pack-  
age he found, a trowel, a putty knife,  
a half dollar and an eight-penny de-  
tector, filled with biblical quotations.  
The writer declared that he had stolen  
the tools while working on the set.  
He said that he had since "gotten"  
religion and desired to make amends  
for his wrong doings. He said that  
he sent the 50 cents along for interest.

Brilliant.

## ELECTRIC SHOW IN WONDERLAND.

PATRONS BEING TAUGHT USES  
OF HARNESSED JUICE.

Cigars Lighted Through One's  
Clothing and Other Startling Feats  
Exhibited—Birds, Flowers and  
Fruit Brought to Life, Bloom and  
Harvest by Vivifying Fluid.

The Shrine Auditorium, ablaze with  
its thousands of varicolored lights,  
was the rendezvous of hundreds of in-  
terested spectators yesterday from 2  
o'clock, the opening hour, until 11  
o'clock last night.

The wonderful power of electricity  
and many of the uses to which it can  
be applied is being taught to the  
patrons of the electrical trades ex-  
position by practical and entertaining  
demonstrations.

In every booth in the building last  
night the power of this great natural  
force was demonstrated in one form  
or another, and when the Catalina  
band stopped to rest even the music  
was furnished by electric pianos and  
harps.

One of the main features of the  
programme last night was the exhibi-  
tion in the booth of the Empire  
Electric Company, where E. J. Rose  
welded pieces of iron, allowed spec-  
tators to light cigars by touching them  
to his clothes or his hair, and per-  
formed many other feats to show what  
may be done with electricity.

Another feature which attracted a  
great deal of attention was the electric  
light bulb in the Gas Brothers booth  
which was placed in a large bottle of  
water and was lighted from a wire-  
less apparatus ten feet away.

One of the most attractive booths  
is that of the National Electric Lamp  
Association, in which is installed a  
tree of decorative lamps, consisting of  
birds, fruits and flowers. The birds,  
although light-hearted, do not stir,  
the bright flowers have no fragrance  
and the fruit if one attempted to eat  
it would turn the lips to ashes, but  
the artistic effect produced is beauti-  
ful.

Glen C. Webster, manager of the  
engineering department of the as-  
sociation, arrived in Los Angeles yester-  
day and will remain until the close  
of the exposition.

Probably the exposition of a more  
educational value has ever been given  
in Los Angeles than the present show  
at the Shrine Auditorium. Silk is  
manufactured, wheat is ground into  
flour, clothes are washed and ironed  
and a hundred other demonstrations  
of the uses of electricity will be given  
every night from now until Decem-  
ber 3.

D. M. Moser, manager of the show,  
last night said that several new  
booths will be installed in time for  
the exhibition tonight.

TWO TOWNS IN BITTER FIGHT.

Anaheim Starts Proceedings to End  
Existence of Its Neighbor and  
Bad Feeling Follows.

STANTON, Nov. 26.—The action of  
Anaheim in attempting to break the  
incorporation of this city upon purely  
technical grounds, while not unex-  
pected created considerable unfavor-  
able comment.

Heretofore Anaheim has disclaimed  
responsibility for any such proposed  
action, but has now come into the  
open and stands sponsor for it. City  
Attorney Ames of Anaheim, before the  
attorney of record in the matter.

President Bradford and the Board  
of Trustees have announced their  
intention to fight to a finish, in this  
they are sustained by a great majority  
of the people of the city of Stanton is  
represented by Attorneys W. J. Hanlon  
and Rush M. Blodgett, and if neces-  
sary, they will be aided by other legal  
talent.

The sympathy of Orange county  
people is with the baby city, but the  
fight is not taken seriously by those  
on the inside, it being believed that  
the city officials of Anaheim are try-  
ing to save their faces by having  
blundered throughout the entire  
proposition. The company will ap-  
pear for the benefit of the Rincon  
fund, which is still more than \$50,000  
short of the \$50,000 mark set.

The company includes thirty-five  
people and was organized by Sol N.  
Sheridan, one of the most vigorous  
of Ventura boosters for the Rincon.

In addition to the features brought  
up from Ventura, music will be fur-  
nished by La Monaca's band and  
there will be other local talent em-  
ployed.

The money from all performances  
will be turned over to the Chamber  
of Commerce Committee of Santa Bar-  
bara to apply to the \$50,000 fund. The  
contract for the construction of the  
Rincon causeway was made through  
the Chamber of Commerce here. The  
plans and specifications have been  
filed with the Ventura Supervisors,  
to whom the work will be turned over  
when completed. The contract with  
John Williamson to construct the  
causeway has been approved by the  
Ventura Supervisors.

### Man Gets Religion and Returns Tools, Stolen Years Ago, With Interest.

A trowel and putty knife, stolen  
several years ago, were returned  
with 50 cents interest to the residence  
of M. Hurwitz, No. 4512 South Figueroa  
street, last night. When Hurwitz,  
who is the proprietor of a downtown  
moving picture theater, returned to  
his home, with the members of his  
family, a package was found outside  
of their door.

Fearing that the package might  
contain explosives, Hurwitz notified  
the University police station. Patrol-  
man J. H. Wrenner was sent to the  
house. Upon examining the pack-  
age he found, a trowel, a putty knife,  
a half dollar and an eight-penny de-  
tector, filled with biblical quotations.  
The writer declared that he had stolen  
the tools while working on the set.  
He said that he had since "gotten"  
religion and desired to make amends  
for his wrong doings. He said that  
he sent the 50 cents along for interest.

Brilliant.

### ELECTRIC SHOW IN WONDERLAND.

PATRONS BEING TAUGHT USES  
OF HARNESSED JUICE.

Cigars Lighted Through One's  
Clothing and Other Startling Feats  
Exhibited—Birds, Flowers and  
Fruit Brought to Life, Bloom and  
Harvest by Vivifying Fluid.

The Shrine Auditorium, ablaze with  
its thousands of varicolored lights,  
was the rendezvous of hundreds of in-  
terested spectators yesterday from 2  
o'clock, the opening hour, until 11  
o'clock last night.

The wonderful power of electricity  
and many of the uses to which it can  
be applied is being taught to the  
patrons of the electrical trades ex-  
position by practical and entertaining  
demonstrations.

In every booth in the building last  
night the power of this great natural  
force was demonstrated in one form  
or another, and when the Catalina  
band stopped to rest even the music  
was furnished by electric pianos and  
harps.

One of the main features of the  
programme last night was the exhibi-  
tion in the booth of the Empire  
Electric Company, where E. J. Rose  
welded pieces of iron, allowed spec-  
tators to light cigars by touching them  
to his clothes or his hair, and per-  
formed many other feats to show what  
may be done with electricity.

Another feature which attracted a  
great deal of attention was the electric  
light bulb in the Gas Brothers booth  
which was placed in a large bottle of  
water and was lighted from a wire-  
less apparatus ten feet away.

One of the most attractive booths  
is that of the National Electric Lamp  
Association, in which is installed a  
tree of decorative lamps, consisting of  
birds, fruits and flowers. The birds,  
although light-hearted, do not stir,  
the bright flowers have no fragrance  
and the fruit if one attempted to eat  
it would turn the lips to ashes, but  
the artistic effect produced is beauti-  
ful.

Glen C. Webster, manager of the  
engineering department of the as-  
sociation, arrived in Los Angeles yester-  
day and will remain until the close  
of the exposition.

Probably the exposition of a more  
educational value has ever been given  
in Los Angeles than the present show  
at the Shrine Auditorium. Silk is  
manufactured, wheat is ground into  
flour, clothes are washed and ironed  
and a hundred other demonstrations  
of the uses of electricity will be given  
every night from now until Decem-  
ber 3.

D. M. Moser, manager of the show,  
last night said that several new  
booths will be installed in time for  
the exhibition tonight.

TWO TOWNS IN BITTER FIGHT.

Anaheim Starts Proceedings to End  
Existence of Its Neighbor and  
Bad Feeling Follows.

STANTON, Nov. 26.—The action of  
Anaheim in attempting to break the  
incorporation of this city upon purely  
technical grounds, while not unex-  
pected created considerable unfavor-  
able comment.

Heretofore Anaheim has disclaimed  
responsibility for any such proposed  
action, but has now come into the  
open and stands sponsor for it. City  
Attorney Ames of Anaheim, before the  
attorney of record in the matter.

President Bradford and the Board  
of Trustees have announced their  
intention to fight to a finish, in this  
they are sustained by a great majority  
of the people of the city of Stanton is  
represented by Attorneys W. J. Hanlon  
and Rush M. Blodgett, and if neces-  
sary, they will be aided by other legal  
talent.

The sympathy of Orange county  
people is with the baby city, but the  
fight is not taken seriously by those  
on the inside, it being believed that  
the city officials of Anaheim are try-  
ing to save their faces by having  
blundered throughout the entire  
proposition. The company will ap-  
pear for the benefit of the Rincon  
fund, which is still more than \$50,000  
short of the \$50,000 mark set.

The company includes thirty-five  
people and was organized by Sol N.  
Sheridan, one of the most vigorous  
of Ventura boosters for the Rincon.

In addition to the features brought  
up from Ventura, music will be fur-  
nished by La Monaca's band and  
there will be other local talent em-  
ployed.

The money from all performances  
will be turned over to the Chamber  
of Commerce Committee of Santa Bar-  
bara to apply to the \$50,000 fund. The  
contract for the construction of the  
Rincon causeway was made through  
the Chamber of Commerce here. The  
plans and specifications have been  
filed with the Ventura Supervisors,  
to whom the work will be turned over  
when completed. The contract with  
John Williamson to construct the  
causeway has been approved by the  
Ventura Supervisors.

## SOUTH BIG GAINER BY STATE APPORTIONMENT.

Bill Prepared by Senator Thompson, Based on Division of Population, Gives Los Angeles County Approximate Number It Is Entitled to—New Congress District for South—Full Plan of Redistricting.

THE Thompson apportionment bill, which is regarded as the basis for the redistricting of California by the special session of the Legislature, to convene today at Sacramento, means much to Southern California. It gives this portion of the State four Congressmen, a gain of two, and it increases the numerical strength in the General Assembly from twenty-five Senators and Assemblymen to thirty-nine, a gain of fourteen. Its divisions are based on the census of population and adhere to the usual rules governing apportionment on this basis. It gives San Francisco seven Senators and fourteen Assemblymen—also based on the census. Its whole structure conforms as nearly as possible to the division of population. No region, except the infant county of Imperial, which is growing amazingly, drops far below the approximate.

It is important to the whole South that this apportionment be adopted because if it does not the radicals of the Legislature, following the impetus of the monstrous Randall bill of the regular session, will seek to reduce the representation from the cities by at least one-fourth and transfer it to country districts on a basis of area and taxable valuation and population instead of population alone, as the Constitution provides. It is a country district gerrymander.

The principle of the Thompson bill has been indorsed by the leading civic bodies of the larger cities. There is no Randall bill at the present special session but it has a successor in half a dozen other schemes, notably the Hamilton bill. Randall participated in the making of the Thompson bill and is not now antagonistic to it. But there is a combination of forty-six Assemblymen who decided to assent to no apportionment until they had agreed to it.

Changing the political map of California by a reapportionment of the Assembly, Senatorial and Congress districts, involving as it does a re-alignment of the counties which must be maintained under the Constitution for the next ten years, is a work that Senator Thompson, of Alhambra, as chairman of the Senate Committee on Apportionment, has just completed and took with him yesterday to Sacramento. His plan is the result of months of correspondence with the different members of both Houses and is supposed to represent the administration's idea of what will be approved by Gov. Johnson if any bill passes.

For the next ten years California will have, as before, forty Senators and eighty Assemblymen composing its Legislature; but the new census (1910) showed an increase in population that required the increase of Representatives in Congress from eight to eleven.

Of this increased representation at the national capital Southern California is to get two, according to the Thompson plan, and Los Angeles county is to possess two whole districts and be a part of a third. The county is also to have eight Senators and sixteen Assemblymen, wholly within the county, as the Constitution does not permit the division of counties for legislative purposes.

Of the sixteen new Assembly districts ten will be inside the city of Los Angeles and nine precincts in the extreme northern Highland Park and Glendale—will be a part of another. By this new districting for Assembly purposes a substitute for the old ward segregation will be supplied and municipal as well as political work in the future be organized by Assembly districts. In spite of the non-partisan system the political machinery still recognized the areas of the city into nine wards for the convenience of work. Under the new districting the city will have ten units for organization and doubtless all organizations to utilize them for dividing work.

Immediately after the passage of the apportionment act by the special session, which convenes today, the Supervisors will be required under the law to redistrict the entire county by precincts. These precincts must not cross the lines of legislative districts. Already the Supervisors have received the Thompson maps of the county and are at work dividing the districts into precincts in order to advance the work as much as possible. It is the hope to have these new precincts ready for adoption early in January. This is necessary because all the present registration dies with this year and every voter must register again after January 1 to be qualified to vote at any succeeding election.

NEW PRECINCTS NECESSARY.  
There are now 493 precincts in the

county and of this number 235 are in the city limits. By the granting of suffrage to women this number must, perhaps, be doubled. There are those who believe the city will require more than 500 precincts alone, or an average of fifty to the Assembly district. Unless the Legislature passes laws altering the present method of voting so that double voting place may be provided in emergencies in large precincts it will probably be deemed prudent to make the precincts small. This will undoubtedly require more than 500 in the city.

Not only this, but it will mean doubling the cost of elections, unless the number of members on each board or their compensation, is reduced. The law requires eight election officers; they are paid usually \$5 apiece. If the number of precincts is doubled it will mean that the cost for election officers alone each election will be \$32,240. Add to this printing, rent of polling places, transportation of election equipment and \$50,000 will not be far from the cost of an election in the county where precincts are not consolidated and the number of polling places reduced.

Thus the size of the vote, the new political divisions of the county and the necessarily large number of precincts will operate, in the future, to make any management from a single headquarter impossible and the Assembly districting will become the objects of special organization, supervised only from a general headquarters. It will thus provide uniformity of work and result and furnish convenient methods for statistical comparison for the next decade.

The Congress districts of the county are each composed of seven Assembly districts. No district is wholly in the city. On the map, printed on another page, the dividing line through the city is shown by a heavy crossed line. This was necessary in order to unite the geographical line, and was found impossible and incompatible with the distribution of population.

CONGRESS DISTRICTS.

Los Angeles will have a part of the new Eighth district and all of the new Ninth and Tenth districts.

The Eighth district will include the San Monica Bay Assembly district composed of Winchcomb, Del Rey, Ballona, Sherman, Ocean Park, Santa Monica, Sawtelle, Military Home and Malibu precincts and include Freehills Nos. 1, 2, 3, 4, 5, 6, 7, 8 and 14 of the city of Los Angeles. Tropic, Eagle Rock, Annandale, Hermosa, Glendale, Burbank, Lankershim, Calabasas, Chatsworth, San Fernando, Lancaster, Del Sur and La Lumbre. All this region in the two Assembly districts will be a part of the new Eighth

(Continued on Second Page.)

### Mineral vs. Agricultural.

## PRECEDENT IN MAKING FOR GREAT LAND SUITS.

A CASE of great importance to California, by reason of the precedent which is expected to be established, is that now pending in the local Land Office with the Southern Pacific and the Victor Portland Cement Company of this city, as principals.

It is the first case in which the disputed principle of land holding under government grant to the railroad has actually been tried out and for that reason the outcome is anticipated with great interest by those possessing claims upon the enormously valuable oil land now held by the Southern Pacific, for the recovery of which suit is to be shortly instituted by the government.

The crux in the present hearing is identical with that about which the great oil lands suits will turn, namely, whether land given by the government as being of agricultural character can be recovered by process of law following the discovery of valuable mineral on the land. It is the contention that, if such fact can be established, the territory in question automatically reverts to the government through the mineral exception clause in the acts of grant.

At stake in the present hearing are 480 acres of mineral deposit in the

San Bernardino range, sixteen miles off the main line of the Santa Fe at Victorville. It is a portion of some 2000 acres of mineral claims of the cement company, established some years ago. The land is embraced in a general grant made under an act of Congress dated July 21, 1868, though it appears that the particular tract named was not listed by the railroad as part of its holdings until April 27 of last year.

The land was granted and was set apart by the railroad on the presumption that it was of agricultural character, although a part of the Mojave Desert and some miles removed from any source of water. About four-fifths of the tract is composed of low hills of shale and impure limestone, materials valuable for the manufacture of commercial Portland cement and claimed by the cement company on that basis. The railroad attorneys in the case set up a counter claim that the land is useful for grazing purposes and can therefore be classified as agricultural.

The case is being heard by Register Buren and Receiver Robinson, of the local office. On account of the involved character of the evidence introduced it is unlikely that a decision may be expected short of two weeks. In the estimation of Charles M. Kelley, attorney for the cement concern

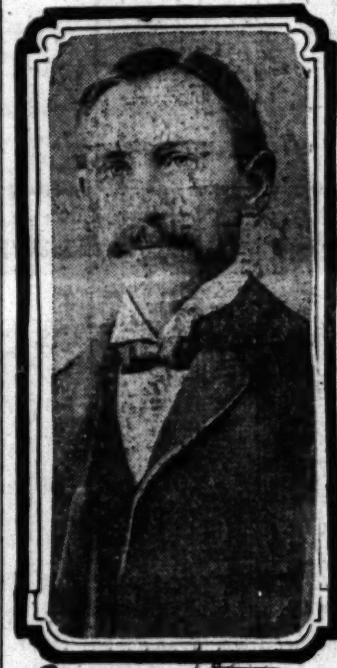

## DEATH BECKONS TO EDUCATOR.

ACCIDENT CUTS SHORT CAREER OF HELP TO YOUTH.

Former Vice-Principal of Los Angeles High School Dies After Brief Illness Due to Injuries Caused by Fall Five Years Ago—Mourned by Many.

James Wheaton Henry, aged 57 years, for fifteen years vice-principal of the Los Angeles High School and one of the best known and best loved men in the educational field of Southern California, died at 9 o'clock yesterday morning at his home, No. 1412 South Burlington avenue. Although he had been confined to his bed only two days, during most of which time he was unconscious, he had been ailing for five years due to injuries sustained by a fall during a vacation trip in the San Bernardino Mountains. The injuries sustained at that time later developed

James Wheaton Henry, who died suddenly at his home in this city yesterday. He was a familiar figure in the scholastic world of the Southland, having been for fifteen years vice-principal of the Los Angeles High School, a position which he resigned on account of ill health two years ago.

Into locomotor ataxia, which was the cause of his resigning from his office at the Los Angeles High School two years ago. Henry was perhaps known personally to more students and graduates of Los Angeles schools than any other man engaged in educational work in this city. During the last fifteen years many changes have been made in the faculty of the Los Angeles High School, but Henry remained in his office as vice-principal until severe illness compelled him to resign. Year after year he stayed at his post, courted and attentive.

He was born in Greenville, N. H., in 1854, the offspring of an old New England family and a grandson of Governor Claflin of Massachusetts. He was graduated from Dartmouth College in 1878, later taking the master's degree. He studied pharmacy, but abandoned that profession to take up educational work. "I like all my boys," he was often heard to say, "but I think I like the had ones best." The kindly tributes of praise from many of his former pupils at the Los Angeles High School bear witness of his great influence and good upon their lives.

In 1878 Henry married Miss Emma A. Young of Joplin, Mo., and nine years later they came to Los Angeles. From this union three children were born, two daughters and a son, of whom only one, Miss Mabel Henry, survives her father.

Henry possessed the happy faculty of always looking on the bright side of life. Only a few days before his death he had ridden into town in an automobile with his friend, Logan, County Recorder.

Henry was a member of the Emmanuel Presbyterian Church and was Past Master of Southern California Lodge No. 108, and A. M. having attained this office in 1901. He was a member of the Alpha Delta Phi society of the Los Angeles High School.

Funeral services will be held from the residence at 3:30 o'clock tomorrow afternoon, interment being in Rosedale cemetery.

SICK AND RELIEF BENEFIT.

For the benefit of the sick and relief fund of the order, County Council No. 839, Y. M. C. A., will present "A Daughter of the Desert," a comedy drama, in the Gamut Club auditorium tomorrow evening. The performance will be followed by a dance.

### Historic Tavern

In Topanga Canyon, which is desperately menaced by the wall of flame sweeping up toward it and the cluster of summer mountain homes of wealthy Angelenos, which surrounds it. The forest fires in the Santa Monica hills had advanced to such a point in the scenic defile last night as to indicate that, unless their progress is stayed, the tavern will be reached by noon today. Below is Fred A. Eddy, one of a party who narrowly escaped death yesterday while camping in the lower end of the canyon. With his clothing soaked to prevent its catching fire and his head protected by hands and arms he fought his way through a veritable wall of flame to safety.

### SILENT BULLET WOUNDS.

Stray Shot Knocks Down Man Talking to Sister on Porch in Boyle Heights.

While sitting on the veranda of his sister's home, No. 3502 East First street, yesterday afternoon, Leslie Binning, a laundryman of Ocean Park, was struck in the head by a silent bullet and knocked from his chair. He was hurried to the Receiving Hospital where it was found that the bullet was of .32 caliber and had inflicted no serious injury. The bullet had lodged under the scalp and was removed without difficulty.

Binning said he heard no shooting and did not know he had been struck by a bullet until it was shown to him at the hospital. He said he thought he had been struck by a stone.

Binning was talking with his sister, Miss M. J. Binning, when shot. She said she did not even hear the bullet whistle past, and was astonished, as well as frightened at seeing her brother fall from his chair with a bleeding wound on his head.

The police believe some boy fired the shot carelessly and that the bullet had spent its force before it struck Binning.

## PROSPECTIVE BRIDEGROOM IS MYSTERIOUSLY MISSING.

FOLLOWING a general alarm sent out by the police, organized search was begun last night in hopes of finding trace of Abe Pritchard, director of the Farmers' and Merchants' Bank of Fullerton, and one of the wealthiest fruit magnates on the Coast, who disappeared Friday on the eve of his marriage with a prominent and wealthy society belle.

The circumstances of his disappearance were such as to lead his friends and business associates to believe that he had met with foul play in this city and every clue to the missing man's whereabouts is being followed butthus far without success.

Pritchard left his home in Fullerton on the early train Friday morning with the Farmers' and Merchants' Bank of Fullerton, and one of the wealthiest fruit magnates on the Coast, who disappeared Friday on the eve of his marriage with a prominent and wealthy society belle.

The circumstances of his disappearance were such as to lead his friends and business associates to believe that he had met with foul play in this city and every clue to the missing man's whereabouts is being followed butthus far without success.

Pritchard left his home in Fullerton on the early train Friday morning with the Farmers' and Merchants' Bank of Fullerton, and one of the wealthiest fruit magnates on the Coast, who disappeared Friday on the eve of his marriage with a prominent and wealthy society belle.

When last seen in his office at the headquarters of the Placentia Orange Growers' Association, of which he was secretary, Pritchard appeared contented and happy and informed his associates that his trip to this city would occupy but a few hours and that he expected to return in ample time to eat his dinner with friends in Fullerton. ## TOPANGO NOW A RAGING FURNACE

Forest Fires Sweep Through Scenic Canyon.

Whole Country Ablaze; Ox-nard Girl With Flame.

Many Graze Death; Property Seems Doomed.

The most serious aspect which the great forest fire in the Santa Monica hills has yet assumed came last evening when a handful of smoke-grimed and utterly exhausted men staggered through the wall of seething flame which locks the lower end of picturesque and historic Topanga Canyon to tell of desperate conditions far up in the scenic defile.

All of Topanga Canyon and its neighboring valleys, half way or more up to Topanga Tavern and its surrounding homes of wealthy Angelenos, is a raging cauldron. At the latest reports the guests of the tavern and the residents of the cluster of bungalows were stubbornly standing their ground, reluctant to leave their property to the mercy of the flames and retreat by the only avenue of escape now open to them—the rough trail over the Calabasas into the San Fernando Valley. To reach safety by the Topanga road is now an utter impossibility.

Informed of the conditions, Supervisor Mellis left this city last night with a force of 100 men. They will approach the fire by way of Calabasas, and with this additional force of fighters, it is hoped that the terrible sweep of the flames may be stayed before the houses are reached.

OXNARD SURROUNDED.

At Oxnard, on the other side of the range, the fire situation is threatening. Four fires are burning on different sides of the town and a heavy pall of smoke and dust is hanging over the district. Ranches and oil wells are threatened in the Canajo Grade section and the fire-fighters are having their hands full in keeping the flames in check. A heavy wind, which assumed the proportions of a gale, is handicapping the men who are fighting the flames. Fires in the Ventura and Nordhoff districts are spreading rapidly, but as yet they have threatened no property. In the vicinity of the Boone ranch the fire is approaching dangerously close to the ranches. Many of the settlers are preparing to flee with their families if the fires grow worse.

South of the range none gainsay the imminence of the danger. With the wind from the north, the fire will reach Topanga Tavern by noon tomorrow, unless the wind changes or the fire is checked. Further menace is in the encroachment of the fires along the top of the ridge toward the east. These will soon connect with the canyons forming the watershed of this section and unless the blaze is conquered the damage here will be difficult to estimate.

IN SANTA YNEZ.

Auditor F. E. Lee, of the Santa Monica Land Company, and Superintendent C. H. Merrill of the Santa Monica Water Company, returned yesterday from Santa Ynez Canyon, where with a force of 100 men they

(Continued on Page Three.)

### Gone Two Days.

## PROSPECTIVE BRIDEGROOM IS MYSTERIOUSLY MISSING.

FOLLOWING a general alarm sent out by the police, organized search was begun last night in hopes of finding trace of Abe Pritchard, director of the Farmers' and Merchants' Bank of Fullerton, and one of the wealthiest fruit magnates on the Coast, who disappeared Friday on the eve of his marriage with a prominent and wealthy society belle.

The circumstances of his disappearance were such as to lead his friends and business associates to believe that he had met with foul play in this city and every clue to the missing man's whereabouts is being followed butthus far without success.

Pritchard left his home in Fullerton on the early train Friday morning with the Farmers' and Merchants' Bank of Fullerton, and one of the wealthiest fruit magnates on the Coast, who disappeared Friday on the eve of his marriage with a prominent and wealthy society belle.

When last seen in his office at the headquarters of the Placentia Orange Growers' Association, of which he was secretary, Pritchard appeared contented and happy and informed his associates that his trip to this city would occupy but a few hours and that he expected to return in ample time to eat his dinner with friends in Fullerton. When he failed to put in an appearance at the appointed hour little attention was paid to the incident despite the fact that he was known as a man of exemplary habits and one who rarely failed to keep an engagement.

Saturday and Sunday passed without word from the missing man and after a consultation with his friends it was decided to enlist the aid of the police in the belief that he might have been murdered or otherwise ill-treated.

All of the hospitals and other pub-

A. Pritchard.

A wealthy orange grower of Fullerton, who is strangely missing. He came to this city Friday, or planned to, but no one has since seen him. A general alarm has been sent out.

Public institutions in the city were searched last night, but no one could be found who remembered having seen the wealthy fruit man. Today another search will be made and photographs of the missing man will be distributed in an effort to gain some trace of his movements.

Pritchard was about 40 years old and has lived in Fullerton for many years, where he accumulated a large estate, most of which is improved real property on orange lands.

According to a description furnished to the police by C. W. Crandall of Fullerton, a business associate, the missing man was dressed in a dark suit of clothes and wore a black slouch hat when he left his home. He was about five feet seven inches in height and weighed about 150 pounds.

Entered at the Postoffice as mail matter of Class II.

**COMING TO THE POINT.**  
 The question of a garbage loading station seems to be coming to a head. It has narrowed down to a choice between all factories and distilleries since the latest site suggested for this had neighbor is on Keller street, between Aliso and Mack streets, which is a narrow neck of land entirely surrounded by gas plants and such.

**IN TUNE.**  
 That life is a unit most persons agree, and that in the multitude of units each has his own individual silence of soul is something of which we are all aware. Where we miss the point in many cases is in not finding the music of life in our own unit of silence. The sweetness of life lies in making our own harmonies. It is not pleasant to work out of tune. Besides, it is unprofitable.

**WHERE CASH IS NEEDED.**  
 A Pasadena boy is reported to have fallen heir to \$100,000, and his parents say they will educate him for the ministry. Judging by the amount of the average salary paid to pastors a man has to be well heeled before he takes to the cloth. The Pasadena youngster, therefore, is lucky in having an uncle who made \$100,000 somewhere else than in the pulpit.

**THE WORK IS DONE.**  
 Several cabins and a large section of country have been swept by fire because children were allowed to play with matches. The self-will of children when not curbed by parental control not only works havoc for the little people while they are infants, but warps character in maturity. Parents who fail to discipline the stubborn will of childhood gain nothing for themselves or their little ones. When parents fail to teach their children the limits of consistent conduct, life teaches them at a fearful expense. There is no use to attempt to shield children from the laws that govern all men because when a child or a grown-up person attempts to break these laws, nature is inexorable in her punishment. If parents do not do their work life will do it for them.

**WOULD AFFECT OUTSIDE CITIES.**  
 That the election of a Socialist Mayor in Los Angeles would have a baleful effect in outside cities as well as here is a fact which is self-evident and long is realized by the people of Pasadena, Long Beach, Santa Monica, Venice, Ocean Park, Monterey, Corona, Santa Ana, in fact, all the places within a fifty-mile radius of Los Angeles. It is known in Pasadena, for example, that much-desired work by the Pacific Electric Railway Company is held up pending what will happen on December 5. If Mayor Alexander is re-elected the whole Southland will give a sigh of relief and the wheels of industry will turn swifter than ever, but if the Socialist is elected important works projected in outside cities as well as here will be smothered and progress in Southern California will receive a severe check.

**THREE GREAT FEASTS.**  
 The signs of the times point to the near approach of three great feasts. Turkey prices have gone availing and those of cranberries can beat Rodgers—which goes to show that Thanksgiving Day is in the offing or thereabout. The advertisements of the department stores bear many pictures of good old Santa Claus, which indicate that Christmas is not far away. But what's the third event? Of course, it is Pasadena's annual Tournament of Roses, which opens the Southland's new year in such amazingly lovely fashion, that bids the frozen East recall that here is a Paradise regained and that reminds us that the Crown City is growing lovelier all the time. Los Angeles always pays particular attention to Pasadena's annual rose fete and each year sends the big crowd. She will do the same again this coming New Year's Day, and knows she will be rewarded by seeing a pageant more gorgeous than ever.

**THE CANNY SCOT.**  
 Our Ambassador, Mr. Whitelaw Reid, has been stroking the Scots in a speech he made recently in Edinburgh. He said that the Puritan of English origin had quite enough credit given to him for founding the race in America and it was about time the Scots had their due. After which he went on to show that many, nay, most of the great men and true who have helped to steer the United States along her glorious path of liberty and righteousness have been Scots. He mentioned many names of illustrious names and gave their genealogies; and by the time he had done so Scotland was feeling so swelled up with proper pride that she felt it had not been for her there would not have been any America.

So just to strike a level Whitelaw Reid added softly that lynch law and yellow journalism were also founded by the Scots in the persons of Captain Kidd, the pirate, and Calander, the journalistic blackmailer. But even so the Scots were flattered that the American Ambassador should be anxious to publicly claim Scotch influence in the building of his country. It is certainly true that as a nation the Scots make life so severe in their native country at the best of times, and remain remarkably primitive outside of the large towns, wherefore the tribulations and hardships of pioneering hold few terrors for the canny Scot. It has become a tradition that every explorer of new land will find a Scot when he gets there.

**MEXICO'S MISTAKE.**  
 When the people of any country buckle on the sword and go forth to fight in freedom's cause the world shouts its approbation of their valor or sympathy with them in defeat. But when the people of Mexico, lured by a false prophet through a mirage of rainbow promises, banished from their shores the grand old man under whose guiding hand Mexico was fast being fashioned into one of the foremost nations of the world, and set up an experimenter in his place, the world looked on without applauding.

The storm cloud of retribution has already begun to fall over the sunny southern republic, and those who used the sword in an unjust cause are beginning to perish by the sword and from the many other evils brought about by Mexico's mistake. Madero, the political office seeker, who so bitterly condemned the strong arm of Diaz, the soldier, now finds that he himself must resort to a still more relentless use of the strong arm than did his predecessor in order to maintain his position as President of the republic. Anarchy is rampant; business is depressed; the industries languish; the rich fields lay fallow; revolutions are springing up like evil geni throughout the length and breadth of the country, and the interests, not alone of Mexico, but of Americans and of the peoples of other countries, are suffering from the effects of the recent useless political upheaval. Madero bowed to the wind and he is reaping the whirlwind, and the most pathetic phase of the situation is that the vast army of people whom he misled must suffer with him. For Madero cannot perform the rash promises he made to his misguided followers. As a result the people are dissatisfied. Every man is a law unto himself, and the poisonous serpent of anarchy is coiling his slimy folds about the throat of our sister republic. War under any circumstances is terrible, but a condition like this is not only terrible, but disgraceful.

**LORD ROSEBERY ON BOOKS.**  
 Lord Rosebery has been getting himself into trouble lately on the delicate subject of libraries.

When opening the famous Mitchell library a few weeks ago he waxed eloquent on the subject of "Dead Books." Every library harbors thousands of dead books, he said, books that no one would ever read again, absolutely valueless, superfluous books, taking up space, accumulating dust, breeding worms and microbes.

So naturally gentlemen like Mr. Carnegie felt somewhat piqued. And as for the Mitchell library itself, which brags of possessing over 400,000 books—well, the managers did not like it at all.

So now his lordship has opened another library and made another speech and tried to set matters right. Even Lord Rosebery dare not go down to posterity as a literary heretic! In the course of the second speech he said how almost impossible it was to burn a book, even a book you don't like. He had himself, with some compunction, once tried to burn a book, and every leaf curled up with a look of reproach. At last it became so tragically pathetic that he snatched the book back and found that, after all, only the margins and corners were burnt and the letterpress, which had originally aroused his ire, remained perfectly intact!

Even had old books, superfluous old books, dreary old books, hopelessly out of date and erroneous old books insist upon their right to exist and make a certain claim on our sentiment. And when they are old favorites, books that have made life pleasanter for us, or helped us to solve some of its problems, no wonder that we lavish love and affection upon them as though they were indeed human.

**SHALL WE SPOIL OUR CREDIT?**  
 By sheer pluck and perseverance, coupled with small capital, much climatic advantage, and a great deal of borrowed money, Los Angeles has been built up in less than a generation from a sleepy village into a great metropolitan city. Financial credit, extended freely to the city and its citizens has made Los Angeles what it is today. Shall we now begin to tear down or retard that which we have so laboriously built up by intrusting the future of our city to destructive Socialist hands? Shall we by our votes on December 5 spoil our own credit? To be in credit does not merely mean that our assets exceed our liabilities, but it also and more pertinently means that we must pay our bills as they become due. Our city has bills coming due in the shape of engagements in connection with the important public works now under way, to meet which millions of dollars of city bonds must be sold within the next few weeks.

We tried to sell a moiety of those bonds the other day, but not a single buyer bid for even a single \$1000 of the \$1,025,000 worth of bonds for which bids were asked. In plain English, that failure of bids practically stopped sale of the bonds in the regular and really only sure channels for bond sales, pending the election; and if by any mischance the election shall be won by the Socialists we may then bid "good bye" to any further sale of bonds except, perhaps, the private sale of a dribble here and there. In such event the public works now under way must stop, as "dribbles" will not suffice to meet the eighteen millions of dollars of engagements referred to. At the same time, under those circumstances, private credit will also suffer.

The Supreme Court of the United States has decided to limit the time of attorneys who argue before them on account of the fact that the calendar contains over 300 cases. That is a "reasonable restraint" of hot air that will be approved by everybody except perhaps the arguing lawyer.

The announcement that James Bryce, Ambassador to the United States, will succeed Sir Edward Grey as Secretary of Foreign Affairs in the English Cabinet, will be received appreciatively by the Los Angeles friends of the distinguished Englishman.

**UNCLE WALT.**  
 The Poet Philosopher.  
 When Joseph James Kerplunk was married the village cut-ups all broke loose and all the junk in town they carried to his abode, and raised the deuce. They shot off guns and banged tin boilers, until the bridegroom, sore distressed, appeared and begged those bughouse toilers to chase themselves and let him rest. And then to still their foolish ravings, and get some peace for self and bride, he had to blow his hard-earned savings for punch, and other things beside. Next day he said: "Though I should tarry for ages in this world of men, you bet your life I'll never marry a female woman e'er again. A bridegroom's treated like a sinner by all these sporty village guys, whereas he should be called a winner, the center of admiring eyes. And men will shy at matrimony, old maids will haunt this dreary land, until these sports of conduct phony are rounded up by law and cannon. Both men and maids are sad and lonely, they haven't got the nerve to wed; they'd marry twice a year if only the noisy cut-ups all were dead."

**MEN AND THINGS**  
**ACROSS THE SEA.**

Political events in England have recalled some of the celebrated expressions by leading men in the government. The celebrated saying "plowing the sands" was uttered a few years back by Mr. Asquith in speaking with reference to the delay occasioned to Liberal measures by the unympathetic House of Lords. At that time Mr. Asquith assured his hearers at a great meeting that "we shall not much longer be content with plowing the sands." But the phrase has stuck, and now it is historic.

Though the late Mr. Gladstone was the finest orator of his time, he gave the political world few pleasing or felicitous phrases of this kind upon which it could fasten. The best one undoubtedly was used in a speech during the great Midlothian campaign, when he said:

"The flowing tide is with us!" This really fine sentence has been quite a common one with all sorts of politicians since that time.

Mr. Balfour has never been very successful in this knack of catching the popular ear with a happy phrase. But Lord Salisbury and Lord Beaconsfield did it more than once. Who can forget the latter's speech about the "men of light and leading," which phrase, even if found in Burke's speeches 100 years ago and more, still first came into full recognition when Disraeli thus uttered it. Then, also, has not the world the ever-memorable "peace with honor" of the banquet speech at the Mansion House after the Berlin conference?

The famous phrase which Englishmen have heard so much during the last session of Parliament, "to die in the last ditch," owes its popularity to the late Col. Sanderson, a member of Parliament, who, speaking of the anticipated resistance of Ulster to Home Rule in 1886, said: "We shall resist to the end; we shall die in the last ditch or we give in!" Since that speech the phrase has often been quoted.

"When Lancashire says today England will say tomorrow" is due to the late John Bright's speech when he was member of Parliament for Birmingham, but lived near Rochdale, and often addressed Lancashire audiences. And the celebrated "three acres and a cow" is in this list of happy phrases made famous by British ministers, for it was Mr. Jesse Collins, member of Parliament, who acted as father to that historic quotation in the first place.

The ceaseless activity of the German Kaiser has taken a turn that is not appreciated by some of the rulers of countries near by to Germany. Not content with continually reviewing his own soldiers, the Kaiser is now determined to invite himself as a guest at the autumn maneuvers of Germany's neighboring countries. There is little doubt that nothing would afford him greater satisfaction than to witness the great maneuvers of France, but this being, of course, an utter impossibility, he has had to be content with attending the Austrian and Swiss maneuvers.

While the Kaiser's presence is not resented in Austria, the Swiss people are anything but pleased at the prospect of having their citizen soldiers play war to please the Kaiser, who will probably have plenty of fault to find with everything about them except their wonderful marksmanship. The press and people are exceedingly outspoken in their opinions of the self-invited guest, and it is generally hoped that some way may be found to make the Kaiser give up his idea without hurting his feelings too much.

The Kaiser is also said to have approached the Belgian government on the same subject and to have received a very blunt hint that the honor of his company would not be duly appreciated by the Belgian people. To get even, probably, the Kaiser used the first opportunity, when giving an audience at Aachen to a special Belgian mission, to let the world know that he thinks the fortifications on which Belgium has spent millions of dollars are absolutely useless and would not delay the invasion of the country by a strong enemy twenty hours.

All the hidebound laws of etiquette of the court of Spain have been set at naught, with the sanction of the King, in the education of his nephew and namesake, the infant Alfonso, now 10 years of age, son of the monarch's eldest sister, the late Infanta Mercedes, by her marriage with Prince Charles of Bourbon.

The boy, who until the birth of a son to the King in 1907, was next heir to the throne, is receiving his education, not from tutors, but in the great school at Madrid, known as the Cardinal Cisneros Institute, where, along with the 200 other pupils, he was subjected the other day in the presence of the King and several others of the reigning family, including his grandmother, Dowager Queen Christina, to a viva voce examination, preceding the distribution of prizes.

The natives of the Congo pay their taxes in kind, as might be expected in a territory just beginning to be civilized. The value of domestic animals in that country is such that one wishes they were nearer London. A bullock is valued at about 12s 6d, a cow, 25s; a horse, £2 15s; a sheep, 1s 6d. The camel commands the highest price, viz., £4. The custom of payment in kind is not so remote as most persons would think. The Reverend, the late Prof. Flint of Edinburgh, we know, has stated that during the time he was professor of moral philosophy in St. Andrews he was accustomed to receive part of the emoluments of his chair in kind from the farms belonging to the university. This would be prior to 1876, in which year he was translated to Edinburgh.

King George, now on his way to be crowned Emperor of India, is said to have in mind the closer union of the more important colonies with the home government by specially educating his sons to become personal representatives of the crown. Prince Henry, now 11 years of age, is reported as intended for the India Viceroyalty. He is now in the hands of the royal tutor and will be specially trained for the duties of the job and would not have to learn them, as present Viceroy Lord, after his arrival in India. Prince Albert, his second son, is designed for the Canadian post if the Duke of Connaught makes good. He is 16 years old now and is a naval cadet. After a year or so at sea he will enter the army and may attend one of the universities for a term or two. There are two more sons, Prince George, 9 years old, and Prince John, 6 years old, who would do for Australia and South Africa if the Canadian experiment succeeds.

**THE RICH LAND OF CHINA.**

BY WALTER J. BALLARD.

The land of China is rich beyond all question, though only a modicum of its richness is yet being developed by China's 438,000,000 people.

No country of the world is better watered. The Yangtze-Kiang River, which traverses the country from east to west, has a course of 3000 miles, and forms a splendid inland waterway up which ocean steamers can sail for 1100 miles to Ichang, a port opened to foreign trade. The Hoang-Ho River, farther north, and next in size, has a course of over 2000 miles, but is of much less value for commerce, being comparatively shallow, subject to tremendous and disastrous floods, and apt to shift its course.

The Grand Canal connects the lower course of the Yangtze with that of the Hoang-Ho, starting from Hang-Chan Bay in the south, and being continued to Tientsin in the north, thus completing the most magnificent system of water communication in the world. This great waterway has, however, been greatly neglected and threatens to become un navigable unless extensively repaired. Besides these rivers and their numerous tributaries, the most deserving of notice are the Si-Kiang in the south, of considerable size but of still more commercial importance, having at or near its mouth Canton, Hongkong and Macao; and the Pei-Ho, which, though much smaller, forms a waterway between Peking and the Gulf of Pechili-Li.

The lakes of China, though rather numerous, are not individually of great extent. Perhaps the largest is Tung-Ting, in the rebel province of Hunan, which furnishes an affluent to the Yangtze-Kiang and has a circuit of 270 miles. Poyang Lake, in the rebel province of Kiang-Si, is ninety miles long by twenty broad, abounds in fish, and is remarkable both for the picturesque scenery around it and the numerous beautiful and populous islands which it encloses.

Following the courses of China's two great rivers, the Yangtze-Kiang and the Hoang-Ho, lie the central and richest Chinese provinces. On both sides of the lower Hoang-Ho is an immense delta plain, consisting generally of a deep alluvial soil of unparalleled richness and fertility. This great plain has a length of 700 miles and a width varying from 150 to 500 miles, and maintains a denser population than any other portion of the earth's surface of similar extent.

The total area of China proper—the eighteen provinces—is 1,523,490 English square miles, with an average population of 246 per square mile. The most densely populated province is Shan-Tung, whose 55,970 square miles harbor 38,247,500 people, or 683 to the square mile. The most sparsely populated province is Kwang-Si, (not Kiang-Si, one of the four rebel provinces,) with sixty-seven to the square mile.

China is rich in useful minerals. Gold, though not thought to be very abundant, is obtained by washing the sand of several of the rivers, particularly those of the upper branch of the Yangtze, and in the mountainous and almost inaccessible regions of Yunnan province. Silver is also found in the same regions. The quantity suffices for a large annual export, chiefly in payment (to India and England's disgrace) for opium. Copper besides forming the ordinary currency in limited mercantile transactions, is wrought to a great extent for economical purposes. Mercury, or quicksilver, in the form of cinnabar, is of frequent occurrence, and is much used for coloring and medicine. Its poisonous fumes are also inhaled like opium and tobacco. There is no want of iron, either in the form of rich deposits, or in that of the carbonaceous coal measures, but mining is not carried on to any considerable extent. Lead, tin and zinc exist, but owing either to a deficiency in quantity, or ignorance of the method of extracting them economically from the ores, the native product falls short of the home consumption.

The coal fields of China are equal in value to all the other coal fields of the world combined, and when China comes into its own (and it is "coming") they must become of incalculable economic importance to the country and of great value to the world. In the southeastern part of the rebel province of Hunan, for instance, the coal deposits cover 31,700 square miles. There is both bituminous and anthracite. At present it is raised without machinery and by the rudest forms of manual labor.

Agriculture, the first of arts, has always been held in highest veneration in China. The agriculture of the Chinese has been lauded in high terms by almost all who have witnessed it. In this the Chinese display unwearied industry and no small degree of skill. On account of the dense population every square foot of land that can be made to raise food is kept in constant service and at the highest point of fertility. Even mountain slopes are terraced and tilled to a height of 8000 feet, wheat or other grains being the usual crop in such places. The farmers slavishly follow a routine which has been handed down without change for untold generations, and not only display no inventive power in themselves, but obstinately refuse to profit by the inventions of other countries. Their implements generally are of the rudest description. English and American plows are disdainfully rejected for a rude, shapeless thing drawn by oxen or buffaloes. No improved breeds in animals except the pig. Their asses and mules are also of good quality. Rice, the principal food of the people, is the staple crop. The rich alluvial plains are admirably adapted for its culture—two crops a year, besides a winter green crop plowed in for manure. Vegetables are extensively grown. Mulberry plants for raw silk are a prominent feature. Millions of people work in the different silk processes as also in cotton. The great tea provinces are Kwan-Tung, Tu-Kien and Che-Kiang.

With modern farm machinery and implements, and modern scientific methods of farming—all sure to come in time—China, the rich land of China, with also good government, will become a world leader in agriculture.

With modern mining machinery, modern mining methods and sufficient railroad facilities, China will also some day rival the United States (the Philippines and Alaska included) in dominating the coal markets of the world, providing her people attain the representative government for which they are now fighting.

An attempt is to be made to use the Eiffel Tower for the purpose of protecting Paris and the surrounding country from the ravages of halloations. M. de Beauchamp, a French scientist, has made some very successful experiments with electric columns of only 100 feet in height, by means of which he was able to protect the surrounding land within a radius of two miles. Equally successful results in the case of the Eiffel Tower would be of importance from an agricultural point of view to the country around Paris.

**Pen Points: By the Staff.**

The Old Guard neither dies nor surrenders. It will be out to a man for Alexander.

The odds are against the first President of China serving for a complete four-year term.

It is getting around in the time of the year when the fuzzy hat sheds its coat. Yours?

The Manchurian noblemen are now casting there is something in the yellow part of the after all.

Those who haven't the price are so far in favor of the policy of the conservation of turkeys.

How the little flags and Alexander's tons are multiplying on the streets! Show your colors!

Woodrow Wilson says there are too many middlemen in politics. Also too many men, Woody, dear.

That's all right, dump the garbage in the ocean. The grand old Pacific murmurs its complaints.

"Bon Givres Mother Away at New England" is a headline in a local newspaper. He probably told her age.

But we do not understand that they any intention on the part of anyone to fortify the canals on Marx.

What has become of the old-fashioned cigar dealer who always had a weak link in front of his place?

Love at first sight is all right in a way, but the chances are that both will get a second look the next time.

The monotony of counting some of the Chicago man crates—but it must be remembered that it wasn't his own money.

The great majority of the voters of the city are level-headed. Instead of being hence they are against Job Nathan and all of his works.

Hail, an American captured by the Mexicans, has been released. His only use what a Kapadista is, and if he really longs in Mexico.

More luck for Champ Clark. Cal is against his nomination. When the would nominate they first make a mistake the Fearless One.

The Turkish and Italian navies were engaged while the boards of estimators gathered on the number of casualties in the recent engagements.

Isn't it about time for the various correspondents at Washington to begin tagging out statements as to what the news will or will not contain?

We hear nothing from Sen. the new Minister at Washington, since the break of the revolutionists. He should at least make a noise like a mowgli.

The recent census of Canada indicates population more than a million less than estimated. Therefore the Canucks are our neighbors, but never our rivals.

The Democrats will select the place for their next national convention on August 8, St. Jackson's Day. Jackson was a democrat, you will recall, but he is dead.

When the Chinese imperial troops proceed in recapturing a city they expel the inhabitants. Evidently they are a little about large population over there.

What has become of Upton Sinclair? You know anything about it, Watson? News, for he might wake up and address the house. Anything but a country.

Giff Pinchot was surely asleep of switch when he neglected to get an injection against that Alaska disease, which opened up those gold veins in country.

"HULLIO!"

When you see a man in yee. Walk right up and say "Hullo!" "Hullo and how d'ye do."

How's the world a-sin' you? Snap the fellow on his back; Bring your han' down with a whack; Waits right up and don't go slow; Grin an' shake and say "Hullo!"

Is he clothed in rags? Oh, shab! Walk right up and say "Hullo!" Rags is but a cotton roll; Just for wraps up a soul; And a soul is worth a true Hale and hearty "How d'ye do!" Don't wait for the crowd to go; Walk right up and say "Hullo!"

When big vessels meet, they sail; They saloot and sail away; Just the same are you and me; Lonesome ships upon a sea; When you travel through the straits; For a port beyond the fog; Let your speakin' trumpet blow; Let yer horn an' cry "Hullo!"

Say "Hullo!" and "How d'ye do!" Other folks are good as you; When you leave your house of rest; Wanderin' in the far away; When you travel through the straits; Country farther side the range; Then the souls you're cheered with; Who go be and say "Hullo!"

REUNION OF  
THREE MADGES.Barricade, Burt and Johnson  
Played the Role.These Three Are Acting in  
Town This Week.Many Heroines Have Shone  
in "In Old Kentucky."

BY JULIAN JOHNSON.

"In Old Kentucky," playing at the Lyceum this week, should furnish occasion for a reunion of Madges.

There are three of them in town, namely:

Mildred Johnson, actually playing the part, her second season in the role.

Laura Burt, in the "Paradise of Mahomet" company, at the Hammer Majestic.

Bessie Barricade, whose name people may have noticed once or twice playing small parts at the Lyceum.

The first of the Madges was Marion Winona, who played the part only four times. She was the soubrette of the company which gave the play its first production at the Grand Opera-house in St. Paul, and the part fell to her when the play came to this town.

Beautiful, gifted, but unhappy and tragically fated Bettina Gerard was the next Madge, and her fascinating personality helped greatly in making this time-honored old play a great popular success.

Laura Burt, whom you've not yet seen to advantage, next made the part her own by a delightful and entirely original characterization. She gave it a new life, and has since then been the real thing ever since. She was Henry Irving's leading woman on his last tour of America, playing Helen in "The Girl of the Golden West," and other important roles.

Laura Burt, who is now a rich widow, living in New York, was another of the Dancer heroine impersonators. She acted the part for a season, and then departed it for matrimony.

Ema Warner, daughter of Nell Warner, the tragedian, followed Miss Burt.

Then came pretty Elsie Ryan, a comedienne who for two seasons reigned Frank from the Lyceum, who was his nightly portion.

Alice Treat Hunt—who died during her great success as Minnie, in "The Girl of the Golden West," at the Lyceum Theatre—took up the part when Miss Ryan laid it down, and for a season rode Queen Rose to inevitable victory.

Bessie Barricade came next, and she was one of the most delightful and ingenious of all the Madges.

Nellie Callahan, petite and demure, followed Miss Barricade.

The next season found Marie Quinn now the wife of Fiske O'Hara, and succeeding her, Marion Shirley presented the role.

Among the other Madges, of long and short reign, are Misses Alice Barker, Lillian Evans, Grace Sherwood, Edith Delano, Barnes, Nellie Elton, Blanche Seymour, Bijou Fernandez, Lillian Mortimer, May Stockton and Mildred Johnson—the present incumbent.

On the whole, the most important business of the part was made by Bettina Gerard.

## CHICAGO AUTO SHOW.

The second week of Commercial Vehicle Section of the Chicago show will be considerably larger than last February, filling the armory, in addition to the Coliseum and Annex. Fifty-eight manufacturers of trucks and delivery wagons, motor fire apparatus and other special forms of commercial and work vehicles have taken space, so that not much remains to be assigned to late applicants. The prospects are that there will be a considerable waiting list for this section and that some who fail to get their applications in early will be disappointed. The only unassigned space is on the main floor of the armory.

Janet Dunbar.

Leading woman with David Warfield, in his new play, "The Return of Peter Grimm." As this play is a colossal metropolitan success, it is impossible to forecast its western journey, but when it does come, it will occupy the Mason Opera-house—of which its author, David Belasco, became one-third owner last week.

## COUNTRY CLUB GOSSIP.

BY ALMA WHITMAN.

Saturday was alive with golfers and golf talk, over 100 players turning up to take part in the various events, play for the Directors' Cup, qualifying round, attracting 114 entries. Besides this there were thirty entries for the Ball sweepstake, and the finals for the Club Cup between George H. Schneider and Shirley Ward. Particulars of all these events will be found in another column.

The week-end was also notable socially, the musical tea on the terrace and during dinner attracting well-dressed interesting crowds on both days.

The Thanksgiving Day programme includes a 36-hole choice score medal play tournament; an 18-hole morning sweepstake, match play against bogey; an afternoon 18-hole sweepstake match play against bogey.

There will also be a tennis tournament, special luncheon, tea and dinner arrangements and a dance in the evening.

## Annapolis Country Club.

Saturday saw an enthusiastic attendance of golfers for the first of the new series of matches to establish the new handicaps for the season. These will extend over two or three weeks and extensive cutting is predicted.

A 36-hole Ball sweepstake, too, a three-quarter club handicap against bogey, received extra large support, J. V. Elliot winning by six up playing from scratch. T. B. French, with a handicap of two strokes, also made a score of six up, and L. du P. Millar came third with four up.

George T. Cline played a very good game, too, making the course in 52.1 up. Lincoln Clark was not quite so good as usual with his 66, and E. N. Wright of whom we are in the habit of expecting only very low scores,

got into all sorts of trouble. His final score of 6 down was uncommonly good under the circumstances.

W. I. Morrison, who plays tennis, golf and baseball, equally well, also took part in this golf match and turned in a score of 39, and H. G. Chaffey came in a little lower down the list.

Two new professionals have been installed in place of the MacLaren, Peoples and Hanley, being their respective cognomons.

The Thanksgiving entertainment committee consists of Natt S. Head, A. E. Edwards and W. A. Barnes, and the events will take the form of an 18-hole golf match play against bogey, for which three prizes are offered, and a mixed doubles tennis match.

Any number of reserves have a dinner parties, so that a large attendance is assured.

## San Gabriel Country Club.

Miss Alice Tobey, captain of the lady golfers, has now received the bronze medal from the Western Women's Golf Association. This medal becomes the property of the winner after six wins, and play for same is to commence on Saturday morning, December 2, at 9 o'clock.

A dance preceded by a table d'hôte dinner will be held in the clubhouse in the evening of the same day.

The R. H. Sanborns who built a charming new house opposite the club last year, have been giving a number of club entertainments recently, the last being a luncheon to a number of Santa Ana friends.

The Thanksgiving Day programme at the club includes a tennis tournament in charge of Miss Fanny Shoemaker, and two golf matches, in the form of a straight handicap against bogey, and foursomes match play.

HANS WAGNER AGAIN LEADS  
BIG LEAGUE BATSMEN.

[BY A. P. NIGHT WIRE TO THE TIMES.]

NEW YORK, Nov. 26.—Hans Wagner of Pittsburgh, though third in the official list, stepped to the front again this year as the real leader among the hitters of the National League as shown by the official batting averages made public today. Kirke and Jackson of Boston top the Pittsburgher in the list, but each played in less than forty games, while Wagner figured in 130 contests.

Schulte of Chicago leads the home-run hitters with twenty-one circuit smashes to his credit. Luderus of Philadelphia bled a strong second with sixteen. Sheppard of Chicago was the man who crossed the plate ofttest, being credited with 121 runs.

Five regulars on the New York team, Devore, Snodgrass, Merkle, Murray and Doyle, stole 247 bases in the aggregate. The club's total is 347. The figures are as follows:

	G.	A.	R.	H.	T.B.	R.R.	H.R.	P.C.
Kirke, Boston	29	49	9	22	5	3	0	.390
Jackson, Boston	29	47	8	22	5	3	0	.387

## SUPPLY COMPANY HUSTLES.

Bert West Has Plans for What Promises to be One of the Best Seasons for Supply Trade.

"The fall rush has been extremely heavy, and we would have been swamped had we not been prepared for it. As it is, we are now able to take care of any orders which may come in. Our system of handling orders makes prompt delivery a certainty. This, coupled with our line of goods, has caused, no doubt, a great deal of the increase in business. We are now stocked up with as nice a line of accessories as any house on the Coast.

"Large orders for winter auto supplies are pouring in at the Western Rubber and Supply Company. An important trade is expected by out-of-town garage men, and they are preparing for it by putting in a complete stock of rainy-season necessities.

"We were never in a better condition to cope with the fall demand than we are at present," says H. H. West, president of the company. "We have a large and complete stock of Weat chains, lamp covers, tire covers, robes, cravettes, rain coats, rain

neck sweaters, gloves, in fact, anything for the winter motorist.

"We recently received a large shipment of the English plaid hats and caps as well as a large shipment of Blauvelt "Ruff-Neck" sweater coats. We are, therefore, in a position to supply a motorist with up-to-date wearing apparel, as well as up-to-date auto supplies.

## MANY RACE FANS.

There are indications that the crowd which will view the big races at Savannah, from November 27 to 30, will be one of the largest, if not the largest, which has ever attended an automobile event in this country.

So great is the demand for seats that the construction of 100 additional boxes is contemplated. Steamship lines operating between New York, Philadelphia and Baltimore and Savannah are receiving requests daily for accommodations for motorists and their cars. The course, which was already one of the best in the country, has been much improved by new grading and the elimination of curves.

Higher speed and fewer accidents is the aim of the Savannah club, and there is evidence that its expectations will be met up with.

More than 300 automobiles will go to Richmond from various cities as far away as Chicago. Moving pictures, showing the effects of good and bad roads, some of them humorous and some dramatic, presenting the contrast between the two phases of the road problem, will lend considerable interest. It will be shown that the high cost of living is due to the cost of the "bad-road" seasons, and that a system of good roads will wipe out this evil.

AUTO ROAD USERS.  
On "road users' day," which will follow the second day, set aside for manufacturers, the automobilists will have their innings. This part of the programme is under the auspices of the Touring Club of America, which will have charge of the automobile tours which have been arranged. More than 300 automobiles will go to Richmond from various cities as far away as Chicago. Moving pictures, showing the effects of good and bad roads, some of them humorous and some dramatic, presenting the contrast between the two phases of the road problem, will lend considerable interest. It will be shown that the high cost of living is due to the cost of the "bad-road" seasons, and that a system of good roads will wipe out this evil.

HIGH PRAISE FOR  
POLARINE OIL

Speaking of the Raymond  
and Whitcomb Trans-  
national Auto Tour, H. B. Stet-  
ton, the manager, said:

"The question of lubrication  
is of supreme importance on a  
trip like this, and I attribute  
our success largely to the  
splendid efficiency of Polarine  
oil we used on all our  
cars.

"Crossing the Rockies with  
the thermometer below zero  
in the trying trip through the  
desert; in all weather and on  
all roads Polarine gave com-  
plete and uniform lubrication.

"There was no over-heating  
of the cylinders, no trouble  
with carbonized valves or  
plugs. It was a searching test  
and Polarine proved itself."

Write for our Polarine booklet, free  
post paid; any agent.

Phones—Main 972, E4420

Sanborns were formerly of Santa Ana, but took such a pronounced fancy to the San Gabriel Country Club that they have built a beautiful new house as near to it as the property line allows.

At the luncheon Mrs. Sanborn was assisted by her charming sister, Miss Hyatt, who lives with her, and Mrs. Frank Fowler, her next door neighbor. The guests included Mrs. G. E. Voorhees of Santa Barbara and Mrs. James Alfred Harris, W. E. Winslow, H. Cornell, A. J. Padgham, B. E. Marple and the Misses Rosa Bird, Vivian Clayton, Stella Presbick, all of Santa Ana. Her local friends included Mrs. James Fred Raftery, James Rice, H. G. Hull, Arthur Leyon and Miss Dresser.

The San Gabriel Club is to have another of its jolly dances on Saturday, December 2, which will be preceded by a table d'hôte dinner. Cards will also be provided for the non-dancers.

**Mrs. Holterhoff's Plans.**  
Some further interesting details have leaked out regarding the Holterhoff ball at the Los Angeles Country Club on Wednesday evening. There are to be theatricals, for which the women's grillroom has been commandeered, in the form of an Irish fantasy called "Steering," which is an adaptation from the "Melting Pot."

**Mr. and Mrs. L. C. Brand** will hold a round robin tennis tourney at their home at Glendale on the 25th and 26th of this month, to which Mrs. O. B. Bruce and Miss Florence and May Sutton have accepted invitations.

### HORSES IN A HURRY.

Driver of Sprinkling Wagon Sustains Two Broken Legs When Team Unexpectedly Starts Up.

While unfastening the reins, which had become tangled in the front wheel of a sprinkling wagon, he was driving, John H. Barrett, of No. 418 Temple street, at Hobart and Wilshire boulevards, yesterday afternoon, was thrown under the wagon by the unexpected starting of the horses. Both of his legs were broken. He was taken to the Receiving Hospital for treatment.

Though several automobiles drew up at the scene of the accident, no one volunteered to take Barrett to the hospital, and he was forced to await the arrival of the police ambulance.

Santa Fe Hotel

for Thanksgiving Day, on Saturday, November 25, and Sunday, November 26, 1911. Rates apply from all Southern California points.

## BIG BENEFIT FOR HOSPITAL.

Booths in Shopping Section  
to Receive Donations.

Help Sought for Inmates of  
Children's Institution.

New Structure to Be Built on  
Imposing Site.

With the present building and funds taxed to their limit, the board of managers of the Children's Hospital have arranged for a donation day to be held tomorrow and Wednesday for a benefit towards the maintenance of a modern hospital structure to be erected upon a site near Hollywood.

Sixty booths where the donations will be taken will be placed near the doorways or elevators in the Alexandria and Lankershim hotels, the banks, confectionery stores, shoe stores and shops in the shopping district of the city under the charge of assistants of the committee composed of Mrs. Edwin T. Rowley, Mrs. Frank Burnett, Mrs. T. E. Newlin and Mrs. James Woolwine.

The board of managers and committee announce that they have nothing to sell, and donations, however small, will be received, thus giving those of meager means an opportunity to contribute to a worthy cause. The hospital was founded by a request from the Goodwin estate in 1901; but the monthly income from it and the amount allowed by the city are insufficient to meet the demands made upon it, as more than 75 per cent of the children cared for come from the city schools and institutions, those recommended by the city district nurses, Humane Society, Juvenile Court, Receiving Hospital and the County Hospital, and whose parents are unable to pay for medical attendance and hospital bills.

The board of managers is composed of Mrs. Hancock Banning, Mrs. N. B. Blackstone, Mrs. Frank W. Burnett, Mrs. C. C. Carpenter, Mrs. John T. Griffith, Mrs. W. T. S. Hammond, Mrs. D. L. Harding, Mrs. Hugh Harrison,

Mrs. Henry West Hughes, Mrs. E. C. Hutchison, Mrs. Eugene S. Lee, Mrs. William T. Johnston, Mrs. John T. Jones, Mrs. Murray Langmuir, Mrs. A. L. Marlowe, Mrs. R. P. McJohnston, Mrs. Charles McEnroe, Mrs. Wesley Clark, Mrs. James McBride Cockina, Mrs. Albert Crutcher, Mrs. Edwin T. Earl, Mrs. Cosmo Morgan, Mrs. J. R. Newberg, Mrs. T. E. Newlin, Mrs. William E. Ramsey, Mrs. Hamilton B. Rollins, Mrs. Edwin S. Rowley, Mrs. Spencer H. Smith, Mrs. William Stimson, Mrs. Walter J. Trank, Mrs. C. D. Viole, Mrs. A. G. Wells, Mrs. R. Wernick, Mrs. Curtis Williams.

They have under their immediate control sufficient property and funds to erect a handsome modern structure upon the four acres of land at the corner of Sunset boulevard and Vermont avenue, which the institution by the late Mrs. Lillian Phillips and which, when completed will be of sufficient capacity to care for all children brought to it.

### Good Speakers Tonight.

The Good Government Club of the Precincts 150 and 151 will hold its regular weekly meeting this evening at the Methodist Church, Burlington avenue and Eighth street, at 8 o'clock. Good speakers are scheduled to address the meeting.

### Make This Test

How to Tell If Your Hair Is Diseased.

Even if you have a luxuriant head of hair you may want to know whether it is in a healthy condition or not. Ninety-eight per cent of the people need a hair tonic.

Pull a hair out of your head; if the bulb at the end of the root is white and shrunken it proves that the hair is diseased, and requires prompt treatment if its loss would be avoided. If the bulb is pink and full, the hair is healthy.

We want everyone whose hair requires treatment to try Rexall "33" Hair Tonic. We promise that it shall not cost anything if it does not give satisfactory results. It is designed to overcome dandruff, relieve scalp irritation, to stimulate the hair roots, tighten the hair already in the head, grow hair and cure baldness.

It is because of what Rexall "33" Hair Tonic has done and our sincere faith in its goodness that we want you to try it at our risk. Two sizes, 50c and \$1.00. Sold only at our stores, The Owl Drug Co., Inc., Los Angeles, San Francisco, Oakland, Sacramento, Portland, Seattle and Spokane.

## Three Important Rules Govern Good Investment

FIRST—Invest with honest men.

SECOND—Invest with men of sound judgment.

THIRD—Invest where you will receive your part of what your money earns.

Now apply these rules to the Los Angeles Investment Company—

Successful, honest, business records of from sixteen to thirty-eight years with this Company and its predecessor prove the integrity of the officers of the Los Angeles Investment Company.

Sound judgment has made this Company a wonder as a dividend payer. An average of about 39 per cent a year covering a period of almost sixteen years.

Every profit has gone directly into the Company's treasury, to be shared pro rata by every stockholder.

Test the stock investment offered by this Company by the three rules above. Then invest one dollar or more.

## The Company—A Few Facts

The Los Angeles Investment Company was founded in 1866, established in Los Angeles in 1895, and incorporated in California in 1899. Its chief business is buying and selling real estate, building homes, selling them on low cash and time payments, and offering safe investments.

The Company has handled twenty-four tracts, some built up and sold, others opening, totalling 2409 acres, in or adjacent to Los Angeles.

The Company operates a monster house-factory and yards, and turns out practically every part of a house. All work is done by its own employees. Each of them is a stockholder and a part owner of the Company.

Elder Places No. 1 and 2, Deebie Tract, College Tract, College Tract Annex, and Derby Park are the Company's most important developments. The immense yards and mills of the Company are at Western and Slauson Avenues, and a new tract is opening at Florence and Vermont. The Company's 1700 acre Hill Tract lies just southwest of Los Angeles.

The Company has more than 8800 stockholders and sells as few as five shares to one person, but not more than 1000. The Company has paid a total of 627 per cent in dividends during the time it has been in Los Angeles, or an average of about 39 per cent a year. The last quarterly cash dividend was \$175,000.00. The paid-in capital and surplus of the Company is \$6,740,000.00, making it the largest financial institution in the Southwest. Its money is invested chiefly in choice real estate, also in mortgages, secured loans, stocks and bonds.

There is no "promotion stock," no stock has been traded or sold at a discount, and no "commissions" are paid for the sale of stock. The Company has no expensive "agents" or "agencies" here or elsewhere.

Stock is being sold from time to time in order to carry out development plans, to buy additional property, and for future growth and solidity. Every additional stockholder makes an advertiser and a possible home buyer.

Five shares can be purchased for a cash payment of \$1 and \$1 or more a month, stock drawing dividends in the meanwhile on the full number of shares purchased.

## The Guarantee Fund

The Guarantee Fund has invariably given back in full the money of every investor who wished it, irrespective of the size of his stock holdings, the length of time his money was invested, or his reason for wishing his money. The Guarantee Fund has always made Los Angeles Investment Company stock convertible into cash at once.

The Guarantee Fund is not now, and never has been, an agreement to list stock for resale, or an agreement to try to sell stock for those wanting their money back. The Fund has money—over a hundred thousand dollars of it—ready to purchase stock from small stockholders at a price protecting them from loss. If you want your money back—ask for it.

## THE DOCTOR'S ANSWERS ON HEALTH AND BEAUTY QUESTIONS.

By DR. LEWIS BAKER.

The questions answered below are general in character; the symptoms or diseases are given and the answers will apply to any case of similar nature.

Those wishing further advice, free, may address Dr. Lewis Baker, College Building, College-Ellwood Streets, Dayton, Ohio, enclosing self-addressed, stamped envelope for reply. Name and address must be given. Very truly yours, Dr. Lewis Baker. The prescriptions can be filled at any well-stocked drug store. Any druggist can order of wholesaler.

**Ex-Health—Your symptoms indicate a weak run-down condition of the nervous system, probably due to indiscretion, late hours or overwork. The symptoms of nervous debility are: Headache, dizziness, loss of memory, lack of confidence, loss of initiative, a general feeling of weakness, shortness of breath, sleeplessness, constipation, irritability and a general inability to get naturally at all times. Scientifically concentrated drugs, free from opium, cocaine and the like, will overcome such conditions. Obtain these ingredients separately, as follows: Get three ounces of compound syrup sarsaparilla in a six-ounce bottle. Get one ounce each of compound fluid balsam, compound essence cardiol and (nature's) parilla, shake and let stand two hours. Then add other two ingredients, shake well and take a teaspoonful after each meal once when retiring.**

**N.O.K.—Such symptoms as are mentioned amongst the following indicate a hereditary scrofula or a condition of blood poisoning. The disease can be eliminated by a regular and thorough course of treatment. The symptoms are: Sores, running sores, eczema, ulcers, boils, carbuncles, bald spots, sore mouth, sore throat, matter discharges, etc. Have the following prescription filled for both yourself and child: Syrup trifolium comp. 4 oz., aromatic cascara 1 oz., and comp. fluid balsam 1 oz. Mix. Adults, one-fourth to one-half teaspoonful. Children, one-fourth to one-half teaspoonful. Be persistent and regular in taking until the blood is altered and purified.**

**Chloro H.—I certainly agree with you that the clothes and hygiene department will not overcome the ill looks of a stringy, greasy head of hair, but such adornments too often accentuate the poor health of the hair and scalp. If your hair is "greasy," dry and dead in lustre, you can quickly restore its lustre and eliminate the condition of blood and at the same time cure the worst case of dandruff and itching scalp. Obtain a four-ounce jar of plate yellow nitrol and use as directed. Accompanying same beautiful, lustrous fluid hair will be sent early reward.**

**Elise J.—Four questions and symptoms have been answered and explained several times heretofore in these columns, but as they may have escaped your attention I will repeat my advice, as I have for many others. You have an extremely chronic and dangerous case of nasal catarrh, and this is responsible for your headache, foul breath and indigestion. The mucous drip into your throat and thence to the stomach while sleeping. Obtain two ounces of vitamin powder; take a level teaspoonful and mix it thoroughly with one ounce of white vasoline. This makes an excellent healing balm when applied to the**

FOLLOW FLAG AND ALEXANDER

Latin-American Races Organize Two Big Clubs.

Prominent Men Head Work for the Whole Ticket.

Spanish and Italian Forces Not for Socialism.

Latin-American voters of Los Angeles have enlisted under the stars and stripes and against the red flag of the Harriman Socialists. Two separate organizations, one of Spanish-Americans and one of Italian-Americans, have been formed and have affiliated their work with that of the Citizens' Committee, following the example of the German-American, who organized a strong body last week.

The notice of the organization of the Spanish-American Club, which undertakes to spend the rest of the campaign among the thousands of voters of the Spanish race in the city, was sent to Chairman Bradner W. Lee of the Citizens' Committee yesterday and is as follows:

The undersigned voters take pleasure in advising you that we have organized a Spanish-American Alexander Club, and we do hereby pledge our support and efforts to the Citizens' Committee to assist in the election of George Alexander for Mayor, and do further pledge our loyalty toward the maintenance of law and order, and the good name of our city.

(Signed) D. Battler, president; J. B. Sanchez, vice-president; R. J. Arata, vice-president; P. D. Olivera, vice-president; A. B. Moreno, treasurer; A. B. Torra, secretary; O. A. Valla, assistant secretary; F. E. Lopez, Domingo Filapio, J. M. Arana, J. Romero.

EXECUTIVE COMMITTEE. About the same time notice from the Italian-American Alexander Club was also received by Chairman Lee. It reads:

The undersigned voters take pleasure in advising you that we have organized an Italian-American Alexander Club, and we do hereby pledge our support and efforts to the Citizens' Committee to assist in the election of George Alexander for Mayor, and do further pledge our loyalty toward the maintenance of law and order, and the good name of our city.

(Signed) Morris Orsatti, president; Emil Penco, vice-president; J. B. Zuchelli, vice-president; J. B. Zuchelli, vice-president; C. Guercio, treasurer; F. Gandolph, secretary; O. Fracchia, assistant secretary; Stephen G. Peluso, L. Terrell, Stefano Torre, Marcello Ellis, F. Burgo, G. Pluma, Peter C. Restovich.

EXECUTIVE COMMITTEE. These organizations are offered by the most prominent men of the races in Los Angeles and promise effective work on election day in the interest of the re-election of Mayor Alexander and the whole ticket.

MAKING GOOD ON VOTE SIFT.

CITIZENS' COMMITTEE HAS AFFIDAVITS PREPARED.

Will Make Legal Record as to Citations of Suspected Fraudulently Registered Voters Complete—New Citations Going Out Constantly and Oath of Service Will Be Filed.

Sunday was not a day of rest at the Citizens' Committee headquarters. There was not a moment's relaxation from the arduous work of the campaign, just because it was the campaign, just because it was the campaign. There is much routine or clerical work yet to be done to insure beyond all possibility of a doubt the election of Mayor Alexander on December 5. And living up to the old saying: "Better the day, better the deed," clerks and department heads reported for work early and remained throughout the day, and some of them into the night.

The preparation of affidavits in support of the citations sent out. These affidavits are for the edification of the Council. When no personal return is made to a citation, the Council, sitting as an election board, will be furnished with an affidavit showing that a citation was made out and sent through the mails to the party whose right to register and vote has been questioned.

For every citation sent out, and already their number close to 2500, an affidavit must be prepared. It is not expected that personal return will be made on more than 10 per cent of the citations issued. That means only about 250 men and women are expected to answer to those already sent out. The same proportion is expected in citations yet to be mailed.

Many of these citations, it is asserted at headquarters, have unquestionably been sent to the late address of men who have passed on into the great beyond. Death and other causes, headquarters workers think, will rob the Great Register of about 2500 names. This contention of affairs, it is contended, could not exist if the law provided for the purging of names from time to time. The Council Clerk has the right to remove a name when he personally knows that the individual has died. It was contended yesterday it would save the city and county money and time to employ one or two men by the year around to properly purge the Great Register daily of names of deceased and other people who move from the city and county.

Besides the large number of citations that have been issued and are being made for challenging hundreds of men and women in the various precincts throughout the city on election day. In the majority of instances it is expected the challenges will be directed against people who have not the right to vote because they have not been in the precinct long enough. Subdivision No. 1 of Section No. 1234 of the Political Code provides a challenge may issue when the would-be voter has not resided within the precinct for thirty days next preceding

MEETING TONIGHT FOR ALEXANDER.

Another big rally for the re-election of Mayor Alexander and the Good Government ticket will be held tonight at the Auditorium Theater, Fifth and Olive streets. The speakers will be:

Mayor Alexander, Mrs. Lou V. Chapin, Thomas E. Gibbon. In case of a larger crowd than the mammoth place will accommodate, overflow meetings will be provided.

COLORED MEETING.

Alexander Demonstration Planned for Old Elks' Hall on Spring Street Tonight.

The biggest Alexander mass meeting of colored voters of the campaign will be held at the T. M. A. Hall, Old Elks' Hall, No. 231 South Spring street, at 8 o'clock tonight. It will be under the auspices of the Colored Citizens' Good Government Club. Walter R. Taylor, secretary and director of that organization, will be chairman. Mayor Alexander and Frank Tyrrell will also speak. The colored orator will be George Washington Snell.

The Executive Committee of the colored organization has been preparing for this meeting for some days. They promise it will be the most mass meeting of its kind of the Mayor's campaign. The pains it has been taken to insure success in this instance are being well paid. The zeal and zest the colored people have thrown into this campaign. They are working hard, night and day, for the success of the Good Government ticket.

CIVIL RIGHTS LEAGUE.

The Civil Rights League of Los Angeles, an organization of colored people, has adopted the following resolutions:

Whereas, The City of Los Angeles has, within the last two years, and is now growing at an unparalleled rate; and Whereas, During said period of two years the prosperity of this has been its greatest; and Whereas, The great undertakings that are now under construction, in building the aqueduct and harnessing the water that will flow through it for the purpose of producing electricity, are being constructed at a cost and in such a manner that bring great credit to the present city officials with George Alexander as Mayor, and establishes confidence; and Whereas, It will be necessary to secure great sums of money by sale of bonds to be used to complete said undertakings; and Whereas, Putting into office at this time a party set of men to govern this city with ideas untried and policies that do not begot confidence, when the city's greatest asset depends upon officials who can establish confidence; and Whereas, The confidence of this city is now such that all its bonds can be readily sold, and the funds needed raised; and Whereas, We, who are of small means and greatly dependent upon the growth and prosperity of the city to secure remunerative employment; and Whereas, We being the great number of owners of homes that represent our entire capital and property, and whose values depend upon the growth and prosperity that Los Angeles now has.

Therefore, be it resolved: That we, the Civil Rights League, do hereby endorse the ticket headed by George Alexander, for Mayor, and earnestly request all the voters of our race to cast all their ballots for that ticket on Tuesday, December 5, and help elect the candidates, who will maintain the city's greatest confidence, and thereby cause no cessation of its growth and prosperity.

BY CIVIL RIGHTS LEAGUE OF LOS ANGELES. Officers: Milton V. Lewis, president; G. Walter Snell, first vice-president; J. Thomas Norris, second vice-president; P. J. Alexander, third vice-president; Morgan T. White, fourth vice-president; J. Nesley, fifth vice-president; James Slaughter, sixth vice-president; G. Woodson Wickliffe, secretary; H. C. Wheat, treasurer; L. Edmonds, corresponding secretary. Executive Committee: J. Thomas Norris, chairman; Morgan T. White, secretary; H. Wheat, Solomon Oliver, Austin Lane, Mrs. J. N. Sellers, Mrs. Edith Tibbitt, Mrs. Della B. Snell, Mrs. Milton V. Lewis, Mrs. Anna Wesley, A. Hutter, Mrs. Bessie E. Prentice, Mrs. C. A. Bruce, W. J. Bowman, E. H. McClellan.

PROGRESSIVE LEAGUE.

Women will be given an opportunity to learn how to vote at a political meeting which will be held tonight at 7:30 o'clock in Precinct No. 155 at No. 1129 West Twenty-second street, under the auspices of the Progressive League. A voting booth will be in operation. The women will be shown how to mark their ballots. Several speakers will address the meeting, the arrangements of which are in the hands of Mrs. M. M. Holt, captain of the precinct.

PRECINCT MEETINGS TONIGHT.

Precinct meetings arranged by the Good Government organization for tonight are:

No. 172, No. 2330 West Twenty-ninth place; No. 42, No. 1473 Alhambra street; No. 221, No. 1520 East Fortieth street; No. 63, No. 1625 Orange street; No. 159, No. 1216 El Molino street; No. 180, No. 738 Merchants street; No. 181, Harvard Hall, Virgil and Santa Monica boulevard; No. 47, No. 163 Toluca street.

WOMEN WILL MEET.

A meeting of the Alexander Club of Precinct No. 66, will be held at the Rampart Apartments, Sixth and Rampart streets, tomorrow afternoon at 2 o'clock. There will be speaking and instructions in voting. Mrs. Charles A. Nimmo is chairman and Mrs. Anna H. Dillon, secretary of the club, which is a branch of the Women's Progressive League.

Silas Adair, one of the pioneer hotel men of Wyoming who has recently retired, is registered at the Westminster from Casper. His wife is with him on the journey, and it is their intention of making this a permanent home. Mr. and Mrs. D. C. Rose of Detroit are staying at the hotel. Rose is a manufacturer of auto accessories.

C. R. Chalbert of Iditarod is registered at the Auditorium. He came out of Alaska on the last steamer just a few weeks ago and is going to pass his first winter in three years in a warm climate. He has had considerable success in the Iditarod diggings and reports prospects for continuing heavy gold mining in that section this coming year.

WEEK OF MANY BIG MEETINGS.

Alexander Campaign to Be Pushed All Over City.

Opening Tonight at the Auditorium Theater.

More Than Forty Gatherings Arranged for Week.

The closing campaign of the Good Government organization this week will be marked by numerous mass meetings each night except Thursday, when no meetings will be held because of it being Thanksgiving Day. Over forty meetings are announced for the week and this number does not include the ordinary precinct meetings which will exceed thirty each night.

The big gun will be heard tonight at the Auditorium Theater, Fifth and Olive streets, at another rousing meeting. Tracey C. Becker, a lawyer of national reputation, for many years an important official of the Department of Justice, will preside. Besides Mayor Alexander; Mrs. Lou V. Chapin, representing the Women's Progressive League; Rev. Matt S. Hughes, one of the celebrated pulpit orators of America, and Thomas E. Gibbon will make speeches.

Besides this meeting for tonight the following are announced for various parts of the city: Normandie Hall, No. 1480 West Jefferson—Speakers: John Topham, J. F. Tucker, John E. Bibb, Frank G. Tyrrell, J. E. Holcomb. Rhode's Hall, No. 5728 Moneta avenue—Speakers: Mayor Alexander, Fred M. C. Choate, Harry C. Dillon, M. E. Jones. Santee Hall, No. 1203 Santee street—Speakers: James A. Anderson, E. J. Fleming, F. G. Tyrrell, W. P. Kelly, W. T. Helm. Wood's Hall, No. 5721 Pasadena avenue—Speakers: Tracey C. Becker, T. K. Kase, Miles Dodge, David Roy. Tent, Sunset and Echo Park—Speakers: Samuel Barnes Smith, Ernest H. Rogers, John T. Higgins.

ON QUI VIVA.

SAYS JAPAN IS WATCHING CHINA.

MISSIONARY WRITES DANGER THREATENS FOREIGNERS.

System of Signals Arranged to Give Warning of Riots and Enable Those in Danger to Fly to Ships. Mikado Anxious to Interfere With Republic's Plans.

That Japan is watching closely for an opportunity to jump into China and secure a foothold which would place the republic now in the process of formation principally at the mercy of the Mikado, and that such a move on the part of Japan would mean grave danger to Europeans now in China, is the news contained in a letter just received by Howard Elliott of this city from his brother, Rev. W. E. Elliott, a former Los Angeles minister, stationed at Changsha.

Dr. Elliott states that Americans and other foreigners in the province where he is located are in great danger and that all have fled from their homes and are being cared for by the foreign consuls and commissioner of customs. Many little children are among the refugees. Danger signs have been arranged for the protection of the European residents and at the first sign of rioting the foreigners are prepared to flee to ships.

Dr. Elliott declares that a riot is actually taking place in the British Consulate. At night a red light will inform the foreigners that a riot is imminent. A rocket will be set up and all Europeans are expected to flee at once to places which have been agreed upon. The consuls have been well stocked with food and provisions in case of a siege and rifles have been provided for the use of the defense. A red flag on the flagstaff of the consulate takes the place of the red light at night. Women and children have been ordered out of Hankow.

"The thing that we fear mostly," Dr. Elliott declares, "is that the foreign powers, or one of them—namely Japan—may step in and interfere with the plans of the Republic. There are certain about the Japanese readiness to take advantage of any possible excuse to press demands. The temper of the revolution is shown by the wholesale slaughter of the Manchus. This seems to be a most deplorable uncivilized feature of this warfare. The non-combatants, defenseless Manchus, men, women and children, have been indiscriminately killed wherever found."

In regard to Japan's readiness to interfere in China's affairs, Dr. Elliott declares that he and other Americans are certain that the entire Chinese people would rise against the foreigners and slay them as a matter of revenge. He says that all of the foreign residents are devoutly praying that the foreign powers will keep their fingers out of the Chinese revolution because interference by an outside power would mean that the Europeans would suffer the fate now befalling the Manchus.

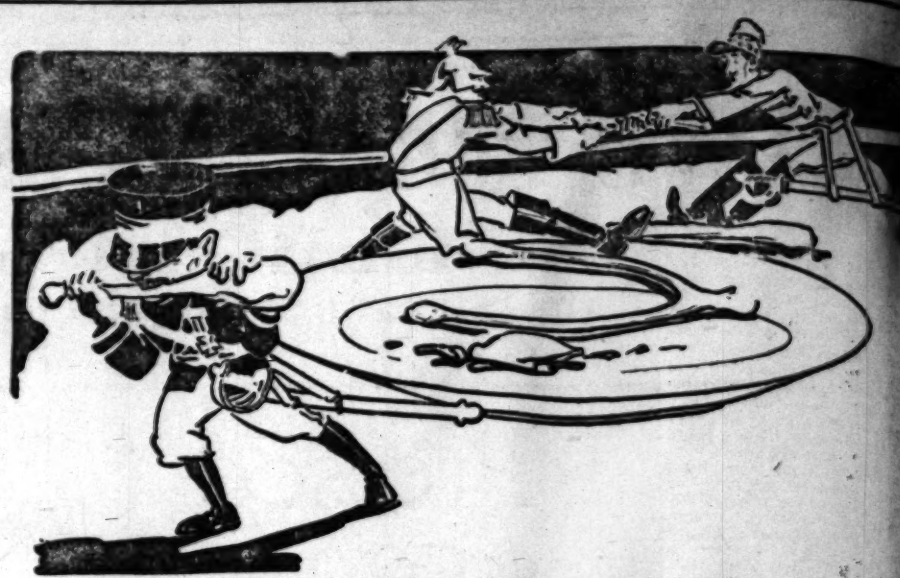

Money has been scarce in the district where the fighting has been going on and Europeans have been unable to get checks or drafts cashed. Because of this many are without funds and would find it hard to escape from the country.

PERSONALS.

Jose James of St. Louis made quite a stir at the Westminster yesterday on account of his name. Jack Hamill of Anacostia arrived with James. Both men have mining interests in Arizona.

Dr. J. T. Binkley, a Chicago practitioner of medicine, is a guest at the Angelus. Mrs. J. A. Asman and son are staying at the hotel. Mrs. Asman is the wife of a San Francisco grain operator.

George M. Gibson of San Francisco is at the Hayward. He is Pacific Coast agent for the Durkee Salad Dressing Company and is here visiting agencies.

Thanksgiving a la Europe

—about all that is left Turkey is the wish-bone— When we stop to think of the European rending of Turkey—and the boiling over of the Revolutionary pot in China. —when we look back on the privations and dangers of the Plymouth Colonists. —when we compare the Necessities of Today with the Luxuries of 20 years ago. —and when we get "right down to brass tacks" and figure out the Prosperity we are enjoying. —we sure have a lot to be thankful for. —and particularly we out here in Southern California.

Hart Schaffner & Martin Twenty Dollars ---splendid suit

The finest (made superior) TWENTY DOLLAR suit we have ever offered you. Twenty years ago you couldn't have touched it for less than \$35. It's hand-colored. Silk sewn. Pure all wool. Thoroughly pre-shrunk in every part. Richly lined. And doubly guaranteed. Novel new Scotchies and Irish homespun—mostly browns. Some grays and blues. The semi English Sack for business men. And roomy varsity "SHAPEMAKER." Better get into one for Thanksgiving.

Brooklyn at Sixth Street 221 South Spring Street

A. Lilly, a wholesale druggist of Baltimore, is staying at the same hotel. Mr. and Mrs. J. J. Quill and Mr. and Mrs. J. J. Quill arrived at the Van Nuys yesterday from Mexico City, where they have been visiting friends. The Quill brothers are interested in the packing business in San Francisco.

James Johnson, one of the pioneers in the new oil fields of Rowell, N. M., is passing a few days at the Hollenbeck. He is here after a visit to contiguous oil fields, where he has interests. Another oil man at the hotel is H. M. Clifford of Bakersfield.

H. O. Harrison is registered at the Lankershim. He came here from San Francisco and is Pacific Coast agent for the Peerless Automobile Company. Mr. and Mrs. H. C. Johnson of the same city are staying at the same hotel. Johnson is in the brokerage business at the hotel.

P. P. Rooney is registered at the Lankershim from Denver. He has just come up from Mexico, where he has a number of mining properties in which he is interested. Mr. and Mrs. A. S. Ruth are staying at the hotel. Ruth is a lumberman of Olympia, Wash.

Former United States Senator Thomas Kearns, accompanied by his wife and little daughter, Miss Helen Kearns, registered at the Alexandria yesterday afternoon from Salt Lake. He is here on one of his frequent visits and is expected to remain a few weeks.

Mr. and Mrs. J. W. Stevens of San Francisco are passing a few days at the Hollenbeck. Stevens is assistant Pacific Coast manager of the National Surety Company and is here conferring with officials of the company. H. C. Mundy, a mining man of Tucson, is at the hotel.

Mr. and Mrs. T. M. Allen are occupying a suite at the Van Nuys. They have come here for the health of their daughter, Miss Margaret Allen, from Salt Lake City, and are accompanied by their servants. Allen is a business man of considerable prominence in the Mormon capital.

The army is well represented at the Alexandria at this time. Two officers and their families registered yesterday. They were Capt. A. A. Parker and Capt. G. A. Matile, both of the Regular Army. They are here on pleasure and not in any way connected with official duties.

S. C. Thompson of the Department of the Interior is passing a few days at the Hollenbeck. He is registered from Washington. W. G. Hogan, a Chicago contractor, is making his home at the hotel. O. J. Ames, a mining man of Jerome, and C. M. Waters, a shipper of Spokane, are also there.

Mr. and Mrs. George E. Starr and Mr. and Mrs. L. C. Larsen form a party of San Francisco people who are registered at the Alexandria. Starr is of the Starr Brothers Company, real estate and insurance brokers, and Larsen is head of the Larsen Brothers, contractors. Three other guests from the same city at the hotel are E. D. Armstrong, Charles Froding and L. W. White. They are interested in electricity. Froding being manager of the Power Specialty Company, and are here for the Electrical Show.
